UNIVERSAL SUPERHEATER AND WESCO PARLOR FURNACES GIVE THE SAME SERVICE AS A WARM AIR FURNACE. THEY CAN BE PLACED IN ANY ROOM IN THE HOUSE AND YET HEAT ALL THE ROOMS AT AN EVEN TEMPERATURE. SPECIALLY DESIGNED FOR HOMES WITHOUT A BASEMENT.

UNIVERSAL SUPERHEATER OPERATES LIKE A FURNACE

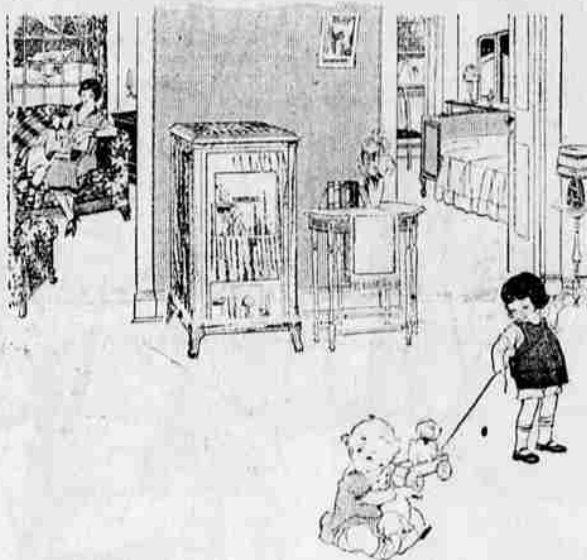

This improved cabinet heater utilizes natural laws of warm air circulation—uses these laws to give any home the comforts of the finest basement heating plant. The Universal Superheater automatically forces a live circulation by drawing cold air from the floors into the bottom of the beautiful cabinet.

WESCOLA PARLOR FURNACE

CIRCULATES WARM AIR THROUGHOUT THE HOME

It is humidified, purified, vitalized and rapidly superheated in the extra large heating chamber. Warm healthful air rushes out of the top and travels to the furthest corner of the home. No hot spots. No cold spots. It equalizes comfort in every part of every room.

CABINET WESCO PARLOR HEATER

It heats all the rooms at an even temperature. The new style fire pot gives a flow of heated air in and over the fuel, assuring the most perfect combustion possible. A warm air furnace with all the cheer and comfort of an open grate.
