WHEAT PLANTING FOR FALL HEAVY

Favorable Moisture Conditions Aid Farmers, Says Bank

SPOKANE, Oct. 7—More fall wheat is being planted than last year, due to favorable moisture conditions according to the monthly report of the Federal Land bank of Spokane. The information coming to the bank is that Inland Empire farmers are in a fair way to make a good profit this year, due partly to economical operation of their farms. The difficulties that have beset farmers for the last five or six years have caused efforts to reduce costs as much as possible.

The bank is beginning to feel the effects of the harvest in liquidation. Crops are beginning to move.

The cold snap did little damage to apples in the Inland Empire, it was reported.

Market Improved

There is an improved market for real estate held by the bank. Thirty-four farms, consisting of 12,500 acres, were sold last month. Most of the sales were to real "dirt farmers" who are moving on the land.

Applications for loans were made last month by 261 farmers for $1,193,000. One hundred thirty-four applications for $450,500 were approved; and 78 loans totaling $280,000 were closed.

The total acreage mortgaged to the bank is 6,700,000 acres, all in the four Northwest states.

VALE, Ore. This year nearly all of the growers have signed up with the Idaho Turkey Growers association, a growers cooperative marketing organization. H. E. Plain, their manager, was here Friday and Saturday and listed 2550 commercial turkeys in the two days. Several hundred more are expected to come within the next few days. It has been estimated that the crop around Vale is double that of last year.

When Mrs. Pearl Hussey Flanagan, Wichita (Kas.) singer and music teacher, was in France recently she was filled with admiration when she was shown through a 15th century chateau in the Montmartre, in Paris.
