## Browning Blames Mother-in-Law For Separation

NEW YORK, Oct. 12 (AP)—Refusal of his mother-in-law to leave him alone with his 16-year-old wife "Peaches" is one of the reasons advanced by Edward W. Browning for his marital troubles. The wealthy real estate operator said he loved his wife too much to start suit because of articles relating to their married life which she is now having published, but said he was "terribly disappointed" about certain phases of his marital career.

"The mother would not leave us alone and finally took her daughter away," he said. "She refused to allow me to talk to my wife over the telephone on the day she left. 'Peaches is through with you' she said to me, when I asked her for some reason she said I had not kept my promise to give them an apartment on Park avenue."

Browning said it had been his desire in marrying Peaches to have a home and children. The "terrible disappointment" came when he realized that she did not wish to have a child. "She said she would rather die than have one," he asserted.

Mrs. Heenan, the bride's mother accompanied them on the honeymoon, he said and until they left his apartment the mother always occupied the same room with Peaches.

Oscar Maxwell finished his mowing of fall wheat at the Plass ranch in the hills east of here the last of the week.

Miss Mabel Wagner, of the Leap school, was at Enterprise Monday and Tuesday attending the teacher's institute.

C. F. Harmon, of Leap, was an Enterprise business visitor the first of the week.

H. M. Vaught was at Enterprise Wednesday visiting his wife who was injured when their car was thrown off the highway, a short distance this side of Enterprise about a week ago. Mrs. Vaught has been at the hospital there, and is reported to be improving from the severe bruises sustained.

Mayo Walker, of Leap, went to Enterprise Wednesday of last week to enter high school there.

Elmer Osborne and Glenn English are still seeding fall wheat at the J. H. Haun hill ranches. They have between 200 and 300 acres seeded, and expect to finish soon. Early sown grain has made a very satisfactory growth during the past week, while the weather has been moderately warm, many of the fields are taking on a meadow like appearance at this time. Pasture continues to be good in fields and pastures, stock are doing well.

Irvin Gastin was busy hauling wood from the Meek ranch at Leap the latter part of the week.

Elwyn Reel, of Middle Valley, was helping Oscar Maxwell, with his seeding in the hill section recently.

John South, of Leap, was a business visitor here the last of the week.

Sam Meek was busy hauling wood to the school house in district No. 49 the last of the week.

Ira Fisher, of Joseph, was a visitor in the Leap section during the past week.

Irvy Gastin recently installed a radio at his home a few miles east of here and reports some excellent programs from eastern stations.

Many farmers in this section of the country are busy at this time with fall plowing. The early fall rains have soaked into the soil sufficiently to make plowing quite good according to those who have been plowing. Some farmers state

they will plow as much of their ground as possible this fall, much as being plowed for seeding to spring grain, while some will be in summer-fallow next season, the seed has started ready this fall, and much of the weeds are being killed by being turned under.

George Cusmins and Roy and Irvin Gastin have been cleaning out some of the wells at their farm. The water is very low in some wells and they feel this is a good time to get them cleaned out, and dig some of them deeper.

Sam and G. C. Meek, of Leap, attended the public sale at Garden Martin's Saturday.

Eugene Gastin has been home a few days the past week from Powwaka. He expects to return there

during the coming week, where he has a few days work gathering cattle for the Middle Point range.

Mrs. Meek and sons, of Leap, visited Sunday at G. F. Reel's in Middle Valley.

Many hunters are still making trips into the timbered sections in quest of deer, and a buck is being brought in by a lucky nimrod every once in a while. The deer are reported to be quite plentiful in many parts of the country.

In modern times we hang symbols of death on our doors. Ancient folk advertised birth in the same way. In Greece an olive wreath was hung on the outer door if the new-born child was a boy, and a wooden fillet if a girl.

## WALLOWA PERSONALS

WALLOWA, Ore., (Special)—Mrs. T. M. Gastin visited a couple of days recently with Mrs. J. B. Gastin.

Mayo Walker, of Leap, recently delivered some chickens to the depot here for shipment to outside markets.

John Lathrop, of Joseph, was visiting his uncle, L. V. Lathrop, of Leap, the first of the week.

H. W. Heekin and wife, of Leap, were visiting their daughter, Mrs. T. L. Sherrod and family, of Middle Valley, the last of the week. Mr. Heekin recently sold his farm at Leap to Joseph Frazier, of Enterprise, and has purchased a 29-acre tract near Powwaka, Ore., where they have moved much of their household goods. They left Sunday with a train and light wagon, and expect to go over the mountains by the toll-gate road. J. C. Filippin is staying on the ranch purchased by Mr. Frazier, putting in the fall crop. Mr. Frazier and his mother expect to move to the farm in the spring.

Frank Walker, of Leap, was last Sunday finishing up a small job of combining some late spring grain.

Elmer Osborne, a farmer of the Leap section, was here a few days

## SCRAMBLED EGGS

It's amazing how many people are coming and going. Not go down to the freight depot and see household goods going out and household goods coming in. The tourists are traveling just like snowbirds.

Often the question is asked: "What is the world coming to?" The only way we can answer it is, it is coming to the Claude C. Pratt Lumber Company and buying their building material just as cheap as possible.

Every time someone comes to tell a story of hard times, they always go away feeling like they were able to buy a beefsteak for supper. I went into a butcher shop and told them I would like to get some meat like those fellows ate who ride around in these big automobiles. The butcher started to wrap up 10c worth of liver for me. He talked like most of them owe for their cars. What's the difference, anyway, as long as No. 2 cedar shingles are \$1.95 per M. Which would you rather do or go fishing?

## Mrs. Wolf Tells of Harrowing Experience

Portland Woman After Being Told Her Case Was Hopeless Recovers Lost Health, Gains 65 Pounds. Thanks Tanlac

The remarkable experience of Mrs. Mollie Wolf, 823 East 7th Street, Portland, Ore., resembles that of thousands of others who after years of suffering found relief and new strength in this wonderful tonic.

Mrs. Wolf was on the verge of becoming a hopeless invalid—weakened from pleurisy, her body cracked with pain. Eating caused indigestion and gastritis. "My life was a grim tragedy," says Mrs. Wolf. "I was run down to nothing, weighed only 95 lbs.—in bed half the time. Was told my case was hopeless as I was down with pleurisy with no escape from lung trouble. No appetite and stomach trouble so bad that everything I ate made me sick."

"I was so thin and pale that I was ashamed to let my friends see me. I tried everything for relief. Then a friend told me about Tanlac. So different from anything I had taken before. The result was marvelous. "Pain soon vanished. I began to sleep well and get up in the morning refreshed. I took 62
