Stocks Display Form Reversal; Rails Gain Some

NEW YORK, Oct. 29 (By the Associated Press).—The stock market displayed a complete reversal of form today, selling off at the start on a renewal of selling pressure against the motors and other speculative industries and then turning sharply upward under the leadership of oil, traction and high grade rails.
Southern Pacific assumed the leadership of the railroad group by moving up 3 points.
Equipments were bought on the belief that large orders for rails and record-breaking freight traffic foreshadowed an increased demand for rolling stock. A brisk demand for Packard stimulated the demand for other motors, with Mack Trucks, Willys Overland and Hudson making substantial recovery from the low levels.
Steels displayed a firm undertone.

er, on the whole, Bradford still being in the doldrums, although continental markets are steady and active.
"Showering of full wool is nearing completion in Texas but no sales are reported.
"Mohair is moderately active but the tendency of prices is in favor of the buyer at the moment."

MORE SCHOOL BUILDINGS PROPOSED BOND REDUCTION POSSIBLE

As the taxpayers of our 38 grant and counties realize the great relief and how large is the sum coming to them through the enactment of the school buildings, and an increase and betterment in the teaching staff, all losses in Oregon this fall is almost unbelievable, but this is a fact, thanks to the efforts of Robert N. Stanfield. In addition to this immediate cash payment, there is a tax reduction for all time of 25 per cent. One has only to ask any school director of those counties to realize to the full the wonderful relief from burdensome taxes the enactment of the O. & C. bill has permitted. This tax relief was only made possible by the holding of the Chairmanship of the Public Lands by Senator Stanfield. The further relief to be had through the Forest Reserve Lands can only be obtained by re-electing Robert N. Stanfield as Senator for Oregon.
Senator Stanfield proposes to apply this principle to the Forest Reserves, which will give every taxpayer in Oregon an additional reduction of from 25 per cent to 10 per cent. Or in other words will give Oregon an increased revenue of from \$11 to \$15 MILLIONS of dollars yearly, and for all time to come. With this substantial reduction in our taxes, and bonded indebtedness, we may look for the immediate coming of Eastern capital and population, and an increase in the value of our own property.
This additional revenue could eventually permit the repeal of all
