Can You Carve A Turkey? Here Are Few Hints

Perhaps the Thanksgiving host whose privilege it will be to carve the turkey needs his memory freshened up a bit. It's surely an art any man may be proud of, to neatly and skillfully carve a roasted bird.

The placing of the turkey on the table is important. The head should be toward the left hand of the carver. This brings the drumsticks to the right and the side of the bird directly in front of the carver.

Insert the fork firmly over the breast bone at the highest point. Do not remove the fork until the carving is done.

First remove the whole leg, thigh and drumstick in one piece. To do this make a circular cut around the joint close to the body. With the blade of the knife, press the leg back and cut through the ligaments, hold the thigh bone to the back. A quick little twist of the knife easily severs the joint. However, if you want to, it's perfectly "proper" to hold the end of the drumstick covered with a paper frill firmly with the fingers of the left hand. Then a quick gash of the skin between the body and the thigh, a little tweak with the fingers and a downward cut with the knife and the leg is neatly and expeditiously carved. The two joints of the leg repose on the platter while the wing is severed and the breast carved.

Next remove the wing by making a circular cut around the joint and pressing back with the knife and just as the leg was done. However, the fingers cannot be used for the wing. Care should be taken not to cut any of the white meat of the breast with the wing. Place the wing on the platter.

Now, with the fork still in position, cut thin slices lengthwise from the breast, beginning close to the place from which the wing was removed and working up the ridge of the breast bone. Now remove the fork and separate the drumstick from the second joint, cutting through at the joint. The dark meat on the thigh and drumstick should be divided into small inviting portions. The wing is divided in two parts.

The stuffing is taken out from the tail end of the bird with a large serving spoon.

In the event that this is your "first Thanksgiving," and consequently your first venture in carving the precious bird, it will more than pay you, Mr. Man-of-the-House, to assist in the scrubbing and cleaning of the turkey and carefully watch the trussing.
