And they bring it to an end with a New Hoover.

From that beginning it has grown to one of the largest hardware, furniture, and other establishments in all Eastern Oregon. And it is the oldest firm in Union county engaged in these lines of business.

The history of this company's growth is the history of a small frame building of one room now occupies several in four different buildings. Customers who made purchases thirty years ago are customers today. We serve only a small part of the great number of people in this community whom we now have the privilege of serving. We hope both the customers of thirty years ago and of today will find equally interesting the pages and advertisements about Bohnenkamp's to be found in this 8-page advertising section which commemorates our 30th Birthday.
