BREAKFAST—Grapefruit juice, cereal, thin cream, salt cod fish in cream, toasted corn bread, milk, coffee.

LUNCHEON—Baked cheese sandwiches, head lettuce with French dressing, prune pudding, milk, tea.

DINNER—Cream of lima bean soup, toasted crackers twice baked potatoes, spinach with creamed mushrooms, nut and fruit salad, pecan nut custard pie, whole wheat bread, milk, coffee.

No meat is suggested in the dinner menu but a hearty, well-balanced meal is supplied.

Since cheese is concentrated food, the lettuce and prune pudding are imperative in the luncheon menu. Any green vegetable which furnished the necessary bulk can be substituted—raw cabbage would be excellent. A dish of plain stewed prunes with an oatmeal cookie may be more convenient for a busy mother to serve in place of the prune pudding.

CARR'S

Multiply this saving by 40

The average family, let us say, consumes about 40 cups of coffee a week. Consider the saving M-J-B gives you by its concentrated strength and richness. For you can use less of M-J-B to each spoonful and still have a rich, satisfying cup of coffee. Now multiply this saving 40 times each week—it counts up, doesn't it?

It is true you buy coffee by the pound but you drink it by the cup. So it's really the cost-per-cup that counts! And measured by this scale, M-J-B is the most economical coffee you can buy.

Put it to a week's test and see!
