Arouse the house Christmas with Music on the Gulbransen

The only piano played equally well by roll or by hand

—by untrained persons or by musicians

More than 125,000 now in American homes

No one who has ever played the Gulbransen Registering Piano will ever confuse it with a player piano. For you play—not "mechanical" music—but human music, just like playing by hand but far more easily.

It is Personal Touch that makes hand playing human. The absence of Personal Touch makes music sound mechanical. And the Gulbransen Registering Piano is the only instrument in the world that you can play by roll with the Personal Touch, the Personal Time, and the Personal Tone Volume that you yourself impart to it.
