W. W. G. Members Entertained at Christmas Party

Members of the World Wide Guild of the First Baptist church enjoyed a Christmas meeting Saturday evening in the community room of the church with their counselor, Mrs. W. P. McAdory, as hostess.

The meeting started with a plate dinner at 5:30 o'clock, which was preceded by the blessing sung by the girls.

The room was effectively decorated for the occasion. Places for the girls were arranged in a circle and marked with Christmas trees bearing gifts, which the girls were instructed not to open until Christmas. A decorated fir tree was in the center of the circle along with wreaths and candles.

The tree was later presented to the Rev. G. A. Pollard, superintendent of the Sunday school, by the members of the Christmas tree society. A Christmas tree was presented to the Sunday school on Christmas eve.

Each one present answered to the roll call by telling what she remembered about a Christmas tree when she was a child.

Entitled candles were at each place and as several of the girls told missionary stories the candle at her place was lighted by the girl sitting next to her.

Five new members, recently taken into the guild, were introduced and presented with the emblem, the white rose, and given the pledge to sign.

For the devotional part of the program Mrs. George M. Pierce and her little son, and little Miss Martha McKennon appeared in a dialogue. Mrs. Pierce telling the children the Christmas story. The dialogue close with the Lord's prayer with the children at their mother's knee.

Following the devotional the point-standard reports were given after which each girl was allowed to take a gift from the tree. The gifts were the year's program of the guild enclosed in a decorated bookmark envelope.

The program was discussed briefly, after which the meeting closed with prayer.

The "Live Wire" Sunday school class of the Christian church, of which Miss Gertrude Wagoner is teacher, enjoyed a Christmas party Friday evening in the community room of the church.

Twelve girls were present and many games were played during the evening, after which refreshments were served.

Each girl brought a gift, which was placed on the Christmas tree, and distributed among the members later in the evening.

Sister Mary Says:

BREAKFAST—Stewed dried apricots, eggs scrambled with rice, graham muffins, milk, coffee.
LUNCHEON—Oyster stew, toasted crackers, filled beet salad, foasted mullins, canned peaches, plain cake, milk, tea.
DINNER—Broiled sirloin steak, French fried potatoes, baked squash, cabbage-celery-carrot salad, whole wheat bread, open apple pie, milk, coffee.

The best salad is so colorful that you may want to serve it at the Christmas dinner. It molded in a thin sheet it could be cut in the shape of stars for serving.

Jellied Beet Salad
Two tablespoons granulated gelatin, 1/2 cup cold water, 1 cup boiling beet juice, 1/2 cup vinegar, 4 tablespoons sugar, 1/2 teaspoon salt, 1 1/2 cups diced boiled beets, 1 cup diced celery.

Scrub three or four small beets thoroughly and cook until tender in boiling water. Reserve 1 cup of the water in which beets were cooked. Slip skins from beets and cut in neat dice. Soften gelatin in cold water for ten minutes. Add beet juice, reheated to the boiling point with vinegar and sugar. Add salt and let stand until beginning to set. Add vegetables and turn into a mold dipped in cold water. Let stand until firm and thoroughly chilled. Serve on a bed of lettuce with mayonnaise. If lettuce is not at hand, finely shredded cabbage can be substituted. In this event, use French dressing.

CONDUCT AND DISEASE

Member Gorman Memorial Inst. It is only recently that conduct disturbance has been considered to have any relation to disease. In the past the law has carried out the "eye for an eye and tooth for a tooth" idea of justice, and various punishments for those not conforming to laws and social regulations have been inaugurated. Roman Meal is a delicious food, nourishing and refreshingly different, whether served as the children's breakfast cereal, or in muffins or oat bread, or as a luncheon treat which you will be proud to serve your friends. Because of the startling lack of coarse, uncooked foods in our diet something more is necessary to keep the body in that harmoniously vigorous, smoothly functioning condition—and that "something more" is Roman Meal! aimed toward the substitution for ordinary jail or criminal insane departments or corrective farms, and toward the institution of medical treatment.

The investigation, therefore, of those undergoing penal servitude is somewhat of its way. But what of the conduct disturbances among those who are at large?

It has been definitely determined that many so called young delinquents are irresponsible on account of some injury sustained at birth, some hereditary form of insanity, the result of some acquired disease, or some accident or injury after birth.

If a child is discovered to be dishonest, incorrigible, cruel, impudent, or to have vicious habits, these things, in all probability, are the result of some medical condition and the child requires treatment rather than punishment.

It is best to take the child first to the family physician and lay the whole matter frankly before him. Select some specialist to whom you think it would be best to refer the child. In this way much distress and disgrace in the future can be avoided.

It is a terrific thing to contemplate how many children have wound up in reformatories and penitentiaries who could have been saved by an early investigation of their ductless glands, the discovery of a head injury, the recognition of the aftermath of meningitis, or some illness finding of syphilis, blood infection, or hereditary insanity tendency, for none of which were they responsible.

What applies to the child applies in a certain degree to the adult delinquent. It is not too much to say that the majority of irregularities of conduct are symptoms of some underlying medical condition.
