been informed by the American minister at Managua that the British and Italian charges against him that they consider their subjects in imminent peril in the present situation without outside protection and that he concurs in these views which represent the consensus of opinion there among the Americans and other foreigners.

The movement follows an announcement yesterday at the house that President Coolidge was solicited not only to protect the lives and property of Americans engaged in commercial enterprises in Nicaragua, but also to safeguard rights granted to the United States under its treaty with Nicaragua providing for American rights in perpetuity for construction of an interoceanic canal and establishment of American naval bases in Nicaragua to protect both the Pan-American and the Nicaraguan canal routes.

Marine Strength Unknown—The number of marines to be sent to Managua was not disclosed by the state department, but from Managua came the word that the force would consist of 100 men and its purpose would be to guard the American legation. At the same time officials of the Diaz government which has been recognized by the United States, were quoted as saying that the move would save the republic from anarchy.

State department comment made no mention of specific peril to foreigners in Managua, or of the movement of liberal troops toward the capital.

Coincident with the announcement of the landing of the additional marines, the Pan-American Federation of Labor issued a statement declaring Secretary Kellogg had committed an error when he recognized the government of President Diaz which is opposed by the liberals headed by Juan B. Sacasa. Sacasa has been recognized by Mexico.

Cause Hard Feelings—The American recognition, the statement said, has caused unnecessary ill feeling against the moral prestige of the democratic American institutions over all the world because it was "useless, unjust and inimical to the people of both countries."

Wealthy Chinese Sued for Divorce

PORTLAND, Ore., Jan. 5 (AP)—May Hsiao Hin, Chinese consul at Portland, who has been a resident here more than 20 years and is wealthy, is defendant in a divorce suit filed by Leong Ho, who besides a divorce decree seeks a large share of the defendant's fortune.

She avers she was married to Ho in Canton, China in 1897, but she alleges she is not his legal wife. He declared another woman is his legal wife and that Leong Ho has been only his housekeeper.

Leong Ho's suit is based on charges of cruelty. She declares she is worth about \$1,000,000. In his answer he says he is worth about \$200,000. He is the owner of considerable business property here, including interest in the Oregon hotel building. Hearing of the suit has been set for Jan. 18.

Calles to Enforce New Land Statutes

MEXICO CITY, Jan. 5 (AP)—Action by the attorney general against those foreign oil companies who refused to comply with the new petroleum and land laws has been ordered by President Calles.

The laws, which became effective Jan. 1, provide for forfeiture to the government of foreign owned lands the owners of which had not applied before that date for concessions confirming their rights and titles.

another violent anti-foreign demonstration occurred there last night. During which the British concession was invaded by infuriated thousands of Chinese coolies. The natives had been stirred to a frenzy by anti-foreign agitation which began with the new year.

The British armed forces, feeling that it would have been impossible to hold the masses who were in an ugly mood, without firing, retired, leaving the concession in charge of the Cantonese troops. The situation was critical for a time, but later reports stated that the Chinese authorities had sent sufficient troops to maintain order.

Customs Houses Seized—It was reported that the mob seized the customs house, the municipal council and drove out some of the occupants, but confirmation of this has not been obtained. The British war memorial opposite the consulate was partly damaged and all barricades at entrances to the concession were demolished.

As a result of a conference yesterday between British and Chinese authorities, by which maintenance of order was left to the Chinese, British marines were not landed, which consequently left the barricades unguarded. The coolies, apparently acting under an organized plan, removed the barricades by sections and by 5:20 p. m. gradual invasion of the concession started.
