Several amendments to the compensation act have been agreed upon.

ANTI-AMERICAN FEELING STRONG

in Mexico.
Government's Hands Full— Meanwhile the government, which is beset by sporadic outbreaks in various parts of the republic, today announced further measures to crush the insurrections which already are known to have cost the lives of at least 75 rebels and 24 federal soldiers.
Rumors reaching Mexico city that 10 rebels were seen hanging from trees on a highway near Omba were without confirmation and are felt to be untrue since such a wholesale hanging would imply serious defeat of the revolutionists which the war department would have announced.
Catholics Issue Denial— The Mexican Catholic episcopate today issued a statement denying the charges coming from the office of President Calles yesterday.

A PAIR OF PALS

Richard and Lawrence, twin sons of Lawrence Tibbett, young Metropolitan Opera star, are their father's pals-in-chief. And they're just as mischievous as they look in this picture of the three. Under such tutelage as they dad can provide they should develop into songsters.

Sleet Storm In Bellingham Hurts Public Utilities

BELLINGHAM, Wash., Jan. 13 (AP)—Scores of telephone poles were broken throughout the country, and in the city about 200 telephones were out of commission this morning as a result of a sleet storm last night, described by weather men as "a silver thaw."
Wire connections between Bellingham and Vancouver are cut off. Street cars are running behind schedule and highways are in a dangerous condition. The sleet storm was accompanied by a strong northeast wind and a minimum temperature was 20 degrees above zero. The wind had abated today and the weather was milder.

Puerto Cabezas, Nicaragua

Puerto Cabezas, Nicaragua, Jan. 13 (AP)—I have received your radiogram referring to the message of President Coolidge before congress. Many thanks.
"Once more I reiterate the categorical statement that I have no agreements with Mexico or any other government. My thought is to bring the U. S. and after the embargo, wherever we could. We were encouraged in our attitude by the declarations of the state department and the American minister in Central America after the Chanorro-Diaz coup d'etat.
"The assertion by President Coolidge that Mexican officers fight in our army and that said government protects us is absolutely erroneous. There does not exist a single Mexican gunboat on our shores. Meanwhile, several more American warships are announced to arrive for the support of Diaz against the constitutional president and the Nicaraguan people."

WASHINGTON, Jan. 13 (AP)—An appeal to the administration to abolish "the use of force" in dealing with Central America and to seek to establish amity by amicable means was made in the senate today by Chairman Borah of the foreign relations committee.
Dissatisfied with the explanation given congress by the president in his special message Monday and unconvinced by the supplemental
