700-FOOT QUEEN OF AIR DREAMED

Successor to Shenandoah to Be Greatest Craft Ever Built

AKRON, Ohio, Feb. 7 (AP)—The Shenandoah's successor in queen of the air is pictured by engineers and artists of the Goodyear-Zeppelin corporation as a silver monster 700 feet long, with half a dozen airplanes housed within its walls and machine guns bristling from its sides.

The dirigible would have a gas capacity of 6,500,000 feet, almost three times that of the Shenandoah, which was 680 feet long and held 2,212,000 cubic feet of gas.

When the new ship is built it will present an almost unbroken line of shining surface. The control car would be built in, to lessen air resistance. The power cars, too, would be housed within the framework, with only the propellers projecting. The propellers would be built on tilting arms which could be turned to a 90-degree angle to help raise the ship up, down or forward.

Well Armed.

Machine guns would be situated on the hull, sides and rudder bars of the boat long, and under the ship would be facilities for housing four to six airplanes which would be launched or received from any location in the air.

The plans contemplate a structure built on a spiral, instead of a single keel, and with special ring girders so that failure of any part of the keel would not cause further ship.

Power would be furnished from four-horsepower engines, capable of producing a 90-mile-an-hour speed. The cruising radius would be 5,000 to 6,000 miles without refueling.

EASIER TONE IN MONDAY MARKET

Lower Values Prevailing on Country and Dairy Produce Today

PORTLAND, Ore., Feb. 7 (AP)—An easier tone with lower values prevailed along the street on country produce and dairy products at the opening today. Receipts while moderate were plenty sufficient for the meager call and the few buyers out early were indifferent.

Considerable country meats were carried over the week end and the meager shipments today went begging. Butchers would not pay over 17 cents for choice light calves and they had to be heavy to bring that. Bulk of the calves in today will not bring over 16½ cents. Choice light hogs opened at 13 cents but the market was quite too strong and buyers were apparently awaiting a break.

Live poultry is plentiful and heavy hens are lower at 25 cents. Light hens are off a cent at the 24-cent top. Limited offerings of fancy dressed turkeys were held at 40 to 42 cents.

The egg market lacked some of the strength that prevailed at the close of last week. Receipts still continued good while the buyer in the eastern markets showed buyers to ease up on their prices.

Butter was quiet with unchanged prices.

Speculators for Advance Control Exchange Today

NEW YORK, Feb. 7 (AP)—Speculators for the advance continued in control of the price movement in today's stock market despite concessions caused by the strained Wheeling and Lake Erie situation and sporadic bear activities against a few specialties.

The predicament of the "shorts" in Wheeling and Lake Erie common was strikingly illustrated by the premium of $2 a share a day, the highest in history of the exchange, which was charged for the loan of the stock and an extreme gain of 11 points in the stock which reached a new high record at 95 as against a low of 37½ earlier in the year.

Executives of the rails today authorized conversion into common of the prior lien and preferring stocks, then adjourned until later in the day without indicating what arrangements had been made to bring this about.

Buying of the dividend-paying rails was spread over a fairly broad list with Chesapeake and Ohio, Lehigh Valley, Lackawanna, Kanawha and Ann Arbor and Pittsburg and West Virginia standing out with extreme gains of three to four points above last week's final quotations. The industrial list was featured by a four-point advance in Hudson Motors.
