Hattie Witt-Hanson read the message of the first state president of the parent-teacher association, followed by several songs by those present, led by Mrs. Clem Green.

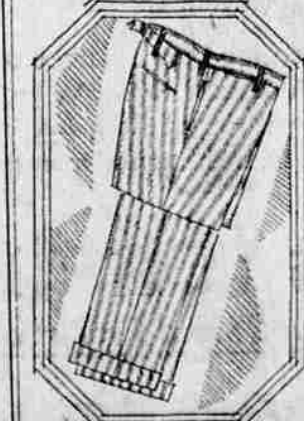

The business session followed the program, when the hot lunch movement was discussed and it was decided to discontinue the hot lunches after another week. Plans were also discussed for the purchasing of a screen to be used with the picture projector machine.

The eighth grade diploma question was discussed but no definite action was taken. By Sister Mary HERAKLAST—Grapefruit juice, cereal cooked with dates, thin cream, broiled cottage ham, creamed potatoes, crisp graham toast, milk, coffee.

LUNCHEON—Pigs in blankets, celery and cream, cheese sandwiches, orange souffle, milk, tea.

DINNER—Beefsteak pie, rice croquette, buttered turnips, coconut fruit salad, sponge cake pudding, milk, coffee, bran rolls.

Large oysters are sprinkled with lemon juice, wrapped in thin slices of bacon and pan broiled to make the "bacon in blankets" suggested in the luncheon menu. The bacon is held in place by tiny skewers or toothpicks.

Cocoanut fruit salad is unusual, inexpensive and delicious.

Cocoanut Fruit Salad
Three-fourths cup shredded pineapple, 1/2 cup sliced fresh strawberries, 1/2 cup shredded cocoanut (canned), 1/2 cup finely chopped celery, 1 tablespoon lemon juice, 2 tablespoons oil, 4 tablespoons orange juice, 1/2 teaspoon salt, paprika, head lettuce.

Combine fruit, cocoanut and celery with lemon juice and let stand until thoroughly chilled. Chill oil and orange juice. Make a French dressing using chilled oil and orange juice and seasoning with salt and paprika. Pour over chilled salad mixture and serve on a bed of crisp lettuce.

This is an excellent way to use strawberries, before they become plentiful.

Nowadays You Press A Button

Or perhaps a switch, or some little gadget, and a lot of things happen around a home that lighten labor and banish trouble.

A whirling fan brings a cooling breeze, and a little copper, disk-like affair throws out a sizzling blast that warms the room in no time.

Another button boils coffee, toasts bread and cooks waffles. Another does a better job than a broom. Another makes a happy laundress out of a dismal wash-woman. Another one cools the ice-box. Another—but why go on?

Labor and time saving devices have come and are today within the reach of the humblest home.

And one of the chief reasons why they have come and why they are within the reach of the humblest home is the power of advertising.

Advertising has carried the news of these better ways of doing things to every home. It has created a desire to possess them, and countless thousands have purchased them, and live better because of them.

Reading advertising not only tells you about new, helpful mechanical devices for the home, but it is an unerring guide to reliable products.
