checks fever, opens the bowels,
tones the entire system. The mil-
lions who know it always rely on
it. Go start it now.

Remember the good, forget the

AT THE THEATERS

"Block Signal"
Showing at
Sherrys Tonight

There is good news for film fans
in the announcement of the Sherry
theater that Ralph Lewis will
again portray his favorite role of
a locomotive engineer in the new
Gotham Production entitled "The
Block Signal."

There is something particularly
thrilling about a mighty modern
express train roaring through the
night and this is magnified many
times with the knowledge that an-
other fast train is coming in the
opposite direction on the same
track.

Ralph Lewis will be seen as an
engineer who loses his position for
running past a block signal and
causing a collision. The accident
was not his fault but the delib-
erate deed of a false friend who
gave the wrong signal. The engin-
eer, through the aid of his daugh-
ter, a telegraph operator, secures
a position as flagman at a country
crossing. Here, with his old pal
"Roundhouse" Rosen, he completes
an invention which will automati-
cally stop a train in a danger zone.

His enemy prevents the road from
giving the new device a fair trial
but through force of circumstances
the engineer finds an opportunity
to give a demonstration which
saves many lives and a large sum
of money. "Roundhouse" Rosen
discovers the plot against his old
pal and the railroad makes proper
restitution to their faithful old
employee.

Sidney Franklin, one of the
members of the original "Able's
Irish Rose" cast, has a prominent
part in support of Mr. Lewis as
"Roundhouse" Rosen and others
in the cast include Jean Arthur,
Hugh Allan and Geo. Thompson.
Comedy showing "Pink Ele-
phants."

besides the right of life, liberty,
such as it is, and the like, should
be allowed the privilege of deploy-
ing as infantry against street cars
that won't stop on cold mornings.

By all means people who
look over your shoulder while you
are trying to write "should be
hanged as spies."

The moping-up squad could be directed
against the man who tells you
about the two holes-in-one he made
in 1923, while you are concentrat-
ing on a putt. . . . And keep the
standing army in readiness to move
against the big he-brute who says
"Alohty!"
