Price Movement Erratic; Steel Stays Near Top

NEW YORK, Mar. 15 (AP)—Mixed price movements, reflecting the play of opposing speculation forces, characterized today's steel market. Reactionary price tendencies predominated during the morning but by early afternoon the market was headed upward again under the leadership of a few high grade industrialists. U. S. Steel common sold within a fraction of its record top, and the "when issued" stock touched a new peak price at 117 1/2.

Oil shares were weak but closed, as a rule, were held at a point or so. Weakness also crept in on some of the merchandising issues such as Gimbel Brothers and S. H. Kress.

Pools were again active in a number of specialties, however, the steel and Eureka Vacuum touching record high prices, but sharp declines took place in other cases. Sugar preferred, American Type Foundry, National Lead and St. Louis Southwestern.

The closing was irregular. The big speculation in General Motors gathered a momentum in the final hour when it reached 157 1/2. Atlantic Refining declined nearly five points. Total sales approximately 1,400,000 shares.
