Now our display includes the newest of spring colors—soft shades that urge you to spring sewing.  
And they are fully guaranteed by us and the makers—an unusual silk value at—  
**85c a yd.**

### Marathon Race of 480 Miles in Length Planned

SAN FRANCISCO Mar. 25 (AP)—In what probably will be the longest marathon foot race ever run, Indian runners from virtually every tribal community on the Pacific coast will compete in a 480-mile endurance contest some time in May. A definite date for the start of the race has not yet been set.

The marathon, which will be over the Redwood highway from San Francisco to Grants Pass, Ore., will be sponsored by the Redwood Highway association. Prizes totaling \$2,000 are expected to lure other than Indian entrants.

Plans for the race, announced today by Harry Lugens, chairman of the committee in charge, call for a revival of the old Indian method of communication—smoke signals. As the race progressed the positions of the various contestants will be announced by signal fire strung out along the entire route of the race.

Included in the athletes who have signified their intention of entering the race are runners of the Oregon cavemen of Josephine county.

The dollar is worth 60 cents compared to its 1914 value, says a statistician. No Chaplin can save \$100,000 if he pays Lita promptly.

### Mat Manager

Here's the only woman wrestling promoter. She is Mrs. Tom Law, of Wichita, Kas., who stages shows in that town with her husband and by herself when he is not around.

### CHURCH OPENS CRECHE

LONDON—A creche or day nursery for children of young married couples attending service, with a garage for perambulators, has been opened at the South Harrow Baptist church.

The minister, the Rev. Mr. H. G. Hoare, says nearly all the members are young couples who cannot leave their babies at night to attend church. The minister's daughter and other volunteer helpers manage the creche.

### Indians Run On Par in Marathon; Race Half Over

NEW BRANFELLS, Tex., Mar. 25 (AP)—Apparently about a fresh as when they sprinted from the starting line four hours and 44 minutes before, the three Tarahumara Indian runners, shoulder to shoulder, passed through here at 1:03 a. m. on their \$2-mile jog from San Antonio to Austin.

The 4 1/2 miles which they had put behind them has not as yet affected their breathing materially or caused perspiration to break out on their sleek brown bodies.

#### Breakfast on the Run

Breakfast was taken on the run about 20 miles out of San Antonio. Pine, ground maize mixed with brown sugar, was fed them by their manager from little earthen bowls.

"Disaster" struck at one of the runners at the 38-mile post.

Augustin Salido, jogging along at a speed of about 12 miles an hour, lost the jingling bells adorning his body, and his manager refused to let him stop and pick them up. By 9 o'clock the runners had called into use their wide sombrero which they use not only to shade their faces, but to rest their arms.

Water in Demand  
As the morning sun began to bear down, the cry of "water!"

Water!" was heard. Great dips of the liquid was dashed over their bodies by their manager who is preceding them in an automobile.

One of the brown men, Thomas Seattle, is wearing moccasins, while his two companions are pounding the hard pavement in sandals.

#### THE NEWS HAS WIT

While the Texas legislature is adopting the mocking bird as the official state warbler (shades of Crockett!) Chicago is deciding to buy an armored car in which to fight crime. Sufficient for the wit of the day is the news thereof.

Kansas retains her chivalrous glory when the supreme court decides that a man should not beat a woman even if she is trying to take his seat in a street car. . . . Mr. Ruth is paid \$70,000 a year, while Mr. Coolidge puts in a longer season, you know. . . . Mr. Coolidge, by the way, is seeking a cool place in the west for his vacation. All he has to do is knock at any farmhouse door.

Men are better than women at the question-answer game that is so popular these days, says a Chicago professor. But just ask some father what to do when the baby swallows a button.

A New York judge decided that two drinks do not make every man drunk. The coroner can tell you about some of the others.

### At 37, She's Mother of 18

"A big family keeps you young," says Mrs. Harry Horsley, 37, of Indianapolis, Ind., mother of 18 children, 13 of whom are living. Mrs. Horsley is shown holding twin girls, the latest additions to her family. They're Margery (left) and Mildred. Mrs. Horsley married at 14.

### Poisoned Whiskey In Snyder House

NEW YORK, Mar. 25 (AP)—Discovery of poison in whiskey found in the home of Albert Snyder was regarded by police today as substantiating charges of Henry Judd Gray that Mrs. Ruth Snyder had planned to poison her husband some time before he was slain last Sunday. Gray and Mrs. Snyder are awaiting trial for murder.

Dr. Alexander O. Gettler, city toxicologist, who analyzed the contents of a bottle in the Snyder home that had previously been described by Gray, said it contained poison "enough to kill any man who took one good drink of it."

None of the poisoned whiskey had been taken recently by Snyder, Dr. Gettler said after an analysis of the victim's brain and intestinal organs.

#### GUARDED DEAD DOG

NEW YORK—A mutt who is a thousand in one way at least is to have a nice home. A white French pointer, struck by an automobile in the Bronx was shot. Before the body could be removed from the street along came a mongrel. For 24 hours it stood guard, showing teeth to anyone who tried to chase it away. Not even food tempted it. Finally Irving Legisch, pet shop owner, captured it with difficulty.
