

## BUTTER PRICES DOWN ONE CENT

Shipment of Home Grown  
Asparagus Received  
from Washington

PORTLAND, Ore., Mar. 29 (AP)—Trading in butter and eggs at the local dairy exchange resulted in a one-cent drop in today's prices for the best grade of butter. The price on cube extras is 41 1/2 cents. Standards declined a cent to 41 cents and prime firsts are down 1/2 cent to 41 cents also.

The trading in eggs raised today's price for extras to 24 cents, one cent higher. The only other change in egg prices is with current receipts which dropped a cent to 19 cents.

Today's early trading in country meats showed a steady trend in prices. Receipts tended lighter for hogs and veal. Hogs steady at 16 1/2 cents. Veal generally selling at 17 1/2 cents down with an occasional choice offering getting 18 cents.

Poultry steady except for light hens which show uneasiness due to too many extra light receipts. Light hens top at 21 cents.

What is believed to be the first shipment of this season's locally grown asparagus was received from McCallie, Wash., today.

## Bullish Drive Continuing in Stock Exchange

NEW YORK, Mar. 29 (AP)—Speculators for the advance resumed their bullish campaign in today's stock market by bidding up a flock of high priced industrial and rail stocks to new high records but they encountered stiff resistance. U. S. Steel common, General Motors, Dupont, General Railway Signal, Commercial Solvents "A", All American Cables, Delaware and Hudson, Norfolk and Western, Baltimore and Ohio and Rock Island were among the many issues to break through their previous high levels.

Selling was most effective against shares of companies whose current earnings are regarded as disappointing. These include famous players, Electric Refrigerators, American Brown Boveri, and several rails. Union Pacific showed a substantial increase in February net income despite a drop of nearly \$200,000 in gross.

Pool operators succeeded in marking up a number of minor specialties such as Waltham, Byproducts Coke and Universal Pipe. The growing belief that substantial stock or treasury asset distributions are in order by large corporations to avoid possible taxes, was a factor in the demand for the so-called "rich men's stocks."

The closing was irregular. A number of industrial shares, including farm implements and pipe issues continued to manifest independent strength. International Harvester, Case Threshing Machine and A. M. Byers rose three points each. Total sales approximated 1,200,000 shares.
