THE RIGHTFULNESS OF GOD—Both God pervert judgment? Or doth the Almighty pervert justice. Job 3:23.

April Fool's Day is all right just so the weather man doesn't start playing jokes with snow storms.

Some one says there are fewer professional, old-fashioned bums on the road these days. We are not surprised. Most of them have turned poets and become famous.

The Observer is gratified at the action of the city commission on the public market question. La Grande needs and can well support a market and there is nothing in the way of improved marketing facilities that can be more valuable to the small truck and fruit farmer than this. Thousands of dollars worth of fine produce is lost each year or sold at a price far below cost because the small operator has no market outlet. The public market here should help remedy the local agricultural situation. If it is established, people of La Grande will, we are sure, find patronizing it profitable and pleasant.

Back in the "good of days" colors were colors and shades were shades whether applied to dresses, doors or donkeys. Not so in this modern age. Fashion decrees that a light blue frock is not a light blue frock but a "hydrangia" frock, that a tan shoe is not a tan shoe but a "monkey skin" shoe. And the worst if it is that translations are not furnished "free with every package" and the fashion color dialect makes a complete change every season. It's getting so bad that manufacturers have to furnish lists showing the new color names this season opposite the color names of last season. We wonder if that is done to keep retailers informed or to keep salespeople from going crazy. The feminine mind may become quickly familiar with the fashion puzzle but mere man never knows what color his wife's new dress is until he sees it—and even then he is inclined to have serious doubts.

STERILIZING ITALY

The Italian parliament, under Mussolini's dictatorship, is considering what is said to be the most drastic censorship law in the world's history. Everything political, journalistic, literary, dramatic and artistic is to be 100 per cent pure. Nothing in public life that disagrees with fascism will be permitted. The ministry of the interior and the provincial police are to have authority over newspapers, theaters, movies, books, paintings, phonograph records and advertisements. It will be a great drive against "pornography and sedition."

Italy, no doubt, can stand quite a little clamping down of the lid on pornography, especially in southern cities like Naples, where vice of many kinds has long flourished to an appalling degree. More power to Mussolini in that venture! Sedition is another matter, too easily confused with mere difference of political thinking in a regime like the present one. Most outsiders, and many insiders, will not agree that political purity means 100 per cent fascism.

Even in the other realms where this censorship is to be applied, it may be sadly overdone. Italy has been a great country, as great as any in the world in many departments of human life, and especially great in the arts and sciences. What would have happened if such a system of control as is now proposed had existed during the Italian renaissance? Would there have been any Michaelangelos or Leonardos da Vincis or Benevenuto Cellinis, or any Dantes or Boccaccios or Tassos, if there had been political censors to scrub, cut, denature and sterilize everything they did? Too much sterilization means sterility.

STEEL MOVES UP TO NEW RECORD

Persistent Demand for Common Is Feature of Today's Trading

NEW YORK, Apr. 1 (AP).—The persistent demand for U. S. Steel common, which touched another new record high for all time; a temporary setback in the rails on a selling inspired by the I. C. decision in the St. Louis 550 O'Fallon case and the renewed weakness of the oil, banking, tobacco and packing issues, were the high lights in today's irregular stock market. With approximately half a billion dollars being expended in the form of quarterly interest and dividend payments, and only a relatively low yield obtainable on high grade bonds, it was regarded as natural that investment funds should find their way into the stock market. Steel common apparently was being accumulated on the theory that the present dividend would be maintained on the new stock, which also touched a record high around 123 and that an extra cash disbursement was likely in this quarter. Money was plentiful in supply at the renewed rates of 4 1/2 per cent and there was no calling of loans such as has occurred on all previous days this week. The closing was irregular. Erie crossed 56 to the highest figure in 29 years while some of the food stocks were sinking badly. Continental Baking preferred slumped 15 points to 72 but rallied to 75. California Packing and Cudahy fell 2 1/2 each. American Woolen preferred went down to 56, the lowest on record. Meantime, Chesapeake and Ohio, Norfolk and Western and other investment rails were moving up steadily. Commercial Solvents "C" jumped five points. Total sales approximated 2,200,000 shares.

Slight Decrease in New Business

NEW YORK, Apr. 1 (AP).—A slight decrease in new business of the country's soft wood business for the week ended March 26, with virtually no change in production and shipments compared with the preceding week is reported by the National Lumber Manufacturers' association. Decreases were shown in all three items, compared with a year ago. New business of hardwood mills showed a sharp gain over a year ago. Unfilled orders of 193 southern pine and west coast mills were 642,447,232 feet against 534,871,483 the week before.

DEMANDS TO BE MADE BY BRITISHERS

(Continued from Page 1)
Christian college at Canton, arrived here today aboard the steamer Fatshun.

PARIS, Apr. 1 (AP).—The Anglo-French concession at Shantung, the foreign Canton, is reported to have been strongly fortified and is in a veritable state of siege, in a special dispatch from Hongkong to the Havas agency. Anti-foreign agitation is said to be increasing throughout the whole district. Anti-foreign agitators invaded the French hospital at Hongkong yesterday but their visit was without incident.

U. S. WORRIED

SHANGHAI, Apr. 1 (AP).—Threats of disorders and anti-foreign agitation in the northern ports of China were claiming more of the attention of the American authorities today.

The United States destroyer William B. Preston has arrived at Chefoo, on the northern part of the Shantung peninsula while the destroyer Pillsbury has left Shanghai for Tsing Tao on the southern part of the peninsula where large naval forces also are concentrating.

A move which is looked upon as signaling the beginning of complete American evacuation of the upper Yangtze is the official closing and sealing of the United States consulate at Chungking by the consul, Walter A. Adams, on March 30. Mr. Adams is remaining aboard the gunboat Monocacy off Chungking until he hears from the bureau of American consular affairs in the interior of Szechwan province as to their intentions—whether they have decided to heed the call and seek safety or remain at their posts. It is understood that after the consul hears from these Americans the United States gunboats in the upper part of the river will be withdrawn. Threatening situations are reported at Wuhu and Hankow. Rear Admiral H. H. Hough, on the United States patrol vessel Isabel, left the Nanking region, proceeding farther up the river to Wuhu, where parades and demonstrations were scheduled for today. The few Americans and Britishers remaining at Wuhu were directed to remain aboard warcraft in the river throughout the day, the British and American authorities having decided upon all precautions to avoid clashes with the Chinese mobs.

The Japanese second fleet in the course of its annual China cruise has reached Amoy. It included two battle cruisers, five light cruisers and other small craft.

Large Receipts Of Eggs Shove Price Downward

PORTLAND, Ore., Apr. 1 (AP).—Large receipts of local eggs contributed to a depression of egg prices to once cent lower today for formal trading in wholesale grades. Current receipts alone hold the same price quotation as Thursday. With nearly 3000 cases placed in storage for the day, total current storage holdings at close of Thursday's business was 19,968 cases. Butter prices steady today.

Prices and receipts of fresh meats and poultry during today's early trading were generally steady. Hogs are easy with a top price of 16 1/2c.

WOOL REPORT

Feminine loveliness is always enhanced by a modish hat—every line of crown and brim paying tribute to the exclusive style you can naturally expect to find here. A wonderful choice for you, too.

Colors are as gay and brilliant as you hope the season will be. Soft lovely silks, pliable milans, crochet visca, bullbunte and sport felts permit every model to show subtle individuality that distinguishes smart millinery. An especially attractive showing right now at these prices—

\$5.50 and \$7.50
Others Also—Up to \$15.00
