RECORD YEAR EXPECTED IN AIR JOURNEYS

(Continued from Page 1)
nounced their intention of attempting to capture the honor for America. Captain C. A. Lindberg, reserve officer and air mail pilot of St. Louis, is another American who plans to try for the prize. Capt. Charles Nungesser of France also has announced he will enter the flight.

Two Attempts

Two attempts are proposed for the summer to establish regular trans-Atlantic air passenger and mail service between Germany and the United States. Other proposed trans-Atlantic non-stop flights which have no connection with the Orteig prize have been announced by Major Franco, Spanish aviator who flew across the Atlantic, and who hopes to fly direct from the Spanish coast to New York, and by the Italian, De Bernardi who expects in a hydroplane.

Little Congestion

There will probably be no such congestion of polar flights as there was last year, but already one flight is assured for the North pole region and there are two possibilities of South Pole flights.

Capt. George H. Wilkins and his party have already left for the Arctic to resume their search for land in the polar regions begun last year. They take to the air from Point Barrow, Alaska. Commander Byrd is planning a South Pole flight, but his entrance into the Orteig race may necessitate postponing that for another year. Antonio Pauli, of Argentina also plans a South Pole flight but that too is indefinite and may be delayed.

Three attempts are proposed to fly to Hawaii. C. K. Vance, air mail pilot, has announced his intention of making a noon-to-noon flight from San Francisco to Honolulu; former members of the Royal Air Force from Canada and Australia have planned to try for the same point from Vancouver; and Lee Scheinhart, former army flier, will make an attempt, backed by the San Diego Chamber of Commerce.

Indian Flights

Both British and Spanish air officers have been reported preparing for an attempt at the non-stop record by flying over India. The present record of 2,345 miles is held by two Frenchmen who last year flew from Paris to Jaak, a Persian port in the Arabian Sea. French fliers plan to circle the Atlantic by air, taking in Dakar, Buenos Aires, Panama and New York, a distance of 40,000 kilometers.

A round trip from Buenos Aires to New York and return is planned by Jorge Carlotto of France and Hector Delano, Argentine. Pelletier D'Ony, French flier, proposes a 12,000-mile flight to Indo-China with only one stop in India, each leg of his journey being far longer than the Paris-New York flight.

The Royal Australian air force proposes a flight to Samoa in a seaplane via New Guinea, Solomon Islands, New Hebrides, New Caledonia and Fiji. One flight is proposed with height as its purpose. Jean Cailzo, who holds the French altitude record, intends to attempt to fly over Mount Everest, 29,000 feet above the Indian plain. Photographs will be taken in the hope that they may be of assistance to expeditions on foot attempting to scale the unreach peak.

Notable among the flights already completed this year or now under way are the following: The American Good Will flight to South America, the De Pinedo four-continent flight, round trip from France to Madagascar completed in February by Lieut. Marc Bernald of France, round the world flight begun by Sarmiento Beires of Portugal, and the flight of the Uruguayan Larre-Borges.

ACCUSE SIX MEN IN KENTON CASE

Bankers and Others Are Named in 18 Indictments Today

PORTLAND, Ore., Apr. 8 (AP)—Eighteen indictments, naming six men were returned today by the Multnomah county grand jury in connection with the investigation of the Bank of Kenton, which was closed by the state banking department Dec. 3, 1926. Kenton is a community on the outskirts of Portland.

Those indicted were J. V. Burke, president of the bank and vice president of the United Meat company; R. R. Thatcher, cashier of the bank; A. A. Hallander, president of the United Meat company; David D. Briggs, secretary of the United Meat company, and B. C. Seydel and J. P. Maginnis, contractors.

All those indicted are already under arrest on district court complaints and are at liberty under bail.

Deputy District Attorneys John Mowry and Leon W. Behrman, who handled the case before the grand jury, said evidence indicated that the United Meat company had overdrawn its account with the bank by more than \$150,000; and that Maginnis and Seydel had overdrawn their accounts by about \$50,000.

The most important charge, according to District Attorney Stanley Mowry, is an indictment accusing Burke and Thatcher jointly with "aiding a false report to the state banking department."

U. S. TO SEND THIRD FORCE TO ORIENT

The soviet consulate at Shanghai was surrounded about 5 o'clock yesterday afternoon. Sir Percival Phillips, correspondent of the Daily Mail, says the consulate had long been considered the "real headquarters of the bolshevik movement in southern China."
