3 HORSEMEN GALLOP OVER FLOOD AREA

(Continued from Page 1)

the total number to well over a score of known dead as a result of the flood.

Pine Bluff experienced one of the heaviest rainfall on record yesterday and awaited a record crest in the Arkansas river, while the main attention there was concentrated upon the care of hundreds of refugees who have sought safety from the water menace in the city.

Armed guards were patrolling the levees on the Red river in both Arkansas and Texas.

Epidemics Breaking Out

It was estimated that 400 square miles were inundated in these two states as the result of breaks along the Red river and backwaters, where there were no levees protecting.

Epidemics had broken out yesterday in two refugee camps in Arkansas. Mumps and other contagious diseases were offering a new menace to the sufferers.

Organized relief agencies estimate the number of homeless in the flood throughout the valley at 50,000 and up.

BRIDGE DESTROYED

LITTLE ROCK, Ark., Apr. 21. (AP)—The south half of the Missouri Pacific bridge across the Arkansas river here was swept away by the current early today, carrying with it trains of cars loaded with rock which had been run on it in an attempt to hold the structure down.

This bridge cuts the railroad main line although the road has another bridge about a mile downstream. The bridge that went out was the connecting link between the passenger and freight terminal in Little Rock and the road's shops and roundhouse in North Little Rock.

The part of the bridge destroyed included two piers, and the superstructure of the south approach, the front span and the draw span.

Built In 1871

Early today the southern part of the structure began a violent vibration. This was so intense that coal in some of the cars was set afire by the friction. A few moments later the structure toppled over into the river and was lost completely from sight.

The bridge, a steel structure, with pedestrian passageways and roadway, was built in 1871. Last year the road spent more than $10,000 in strengthening piers and other parts of the structure.

APPEALS FOR BOATS

LITTLE ROCK, Ark., Apr. 21 (AP)—Hundreds of families remaining in flooded areas in this section will be drowned unless they are rescued in the next few hours, the Little Rock chapter of the American Red Cross said today in issuing an appeal for boats and life savers.

If you don't know that Eaffon invented the cotton gin (by the way, did you ever taste one?) and that President Millard C. Fillmore first said "Give me liberty or give me death!" here are a few questions you can ask people who used to be your friends until they started popping questionnaires upon you.

Fire Almost Wipes Out Lehman Springs

PENDLETON, Apr. 21 (AP)—Fire completely destroyed nine buildings at Lehman Springs resort in the Blue mountains back of Ukiah, according to belated reports reaching here today. The fire occurred Friday night and officials set out today to investigate. The dance hall, hotel, three cabins, ice house, store and a large boylarn were destroyed. The fire is thought to have been of incendiary origin, as another attempt was made to burn it in February.

AVENGED

Most of the Mexican bandits who kidnapped and slew Edgar M. Wilkins (above) American electrical engineer, have been captured in Guadalajara, and the Calles government promises that speedy justice is to be meted out to them. Wilkins' 18-year-old son, taken prisoner with his father, was released by the bandits who are said to have murdered Wilkins when pursuing Mexican federal troops pressed them too close.
