

LOWLY RABBIT GAINS PRESTIGE

Use of Fur to Imitate Pelt of Disappearing Animals Increasing

WASHINGTON, Apr. 20. (AP)—The lowly rabbit is being used by a number of furriers to imitate the pelt of the disappearing animals which are being used in the manufacture of fur coats and the latest fashion in fur.

It is reported that the use of rabbit fur is increasing rapidly in the manufacture of fur coats and the latest fashion in fur.

"Rabbit fur" is being used in a number of ways, and is being used in the manufacture of fur coats and the latest fashion in fur.

Seeks Wood, Finds Clue to Ancestry

LOS ANGELES, Apr. 20. (AP)—Carl Wanka, Los Angeles millionaire, went to England to find a clue to his ancestry.

Wanka and his wife set out to find a home in England of the ancestor of the Wanka family.

They obtained more from an abandoned English quarry, and took back from a Los Angeles publisher which had worked in the city of London.

The World's Most Versatile Typewriter

Whatever is written can be typewritten on this machine

THIS sums up in a sentence the universal range of THE COMPLETE TYPEWRITER — the Model 30 Remington. Here is a typewriter that will perform all of the usual typing tasks. That will write figures in columns with equal speed. That is instantly adjustable to write columns of figures in any desired position on the page. That will do tabular and form work of any kind with the same speed as ordinary typing.

That will manifold, cut, stencil, feed paper with hairline accuracy. That will do any kind of writing that is ever required of a writing machine. No matter what the nature of your writing tasks, there is always a practical advantage in the use of THE COMPLETE TYPEWRITER. We shall be glad to demonstrate the Model 30 in your office without any obligation to you.

REMINGTON TYPEWRITER COMPANY
351 Oak St., Portland, Ore.
MODEL 30 REMINGTON

Mr. Farmers, please be wiser. Let Claude C. Pratt talk to you about the Square Deal Fencing that is guaranteed to outlast any other farm fencing. Look for the Red brand top wire that means galvanized fencing. When we make the statement that the Square Deal Fencing is guaranteed to outlast any other farm fencing, the Keystone Steel and Wire Company of Illinois with their millions of dollars are right back of the statement. Some people think that all galvanized wire is made by the same process. Well, that is true, but remember that galvanized wire is better than the best grade of galvanized wire. For anyone who can get proof that this statement is not true, there is 10 rods of this superior fencing waiting for them free of charge. The best grade of galvanized wire is made with the asbestos wire process. The pure zinc is wiped on the outside of the cold wire, and in the patented galvanized process the red hot wire runs out of a red hot oven into a red hot tank of red hot pure zinc. It fills every pore and none of the porosity is wiped off or can peel off, because it becomes part of the wire. A man would be foolish to spend his good money, even for the best grade of galvanized wire when he can get the genuine galvanized wire at the same price and it will outlast the best grade of galvanized wire two or three times. We have the car number of the large carload of nails and wire that is coming through the tunnel in Union Pacific 151913. We are holding orders for hundreds of rods to be delivered out of the car door. Place your orders quick. It is going to be hauled all over the valley.
