At that time Miss Margaret Ansel will talk to the girls on landscape gardening.

Arrangements were also discussed for a similar meeting during the month of May, when Mrs. Turner Oliver will talk on "Better Homes." Plans are to visit two or three of the better homes in the city at that time.

MENUS

By Sister Mary
BREAKFAST—Stewed prunes, cereal, cream, baked French toast, maple sirup, milk, coffee.
LUNCHEON—Stuffed onions with white sauce, bran bread, jelly, fruit salad, milk, tea.
DINNER—Birds without bones, baked potatoes, scalloped tomatoes, radishes, rye bread, rhubarb pie, milk, coffee.

The recipe for birds without bones is Czech and most popular in Bohemia. The dish is quite as definite in flavor as the attractive Czech pottery is in color.

Birds Without Bones
One and one-half pounds round steak, 1 large onion, 3 cup rice, 1 large loose-head cabbage, 1 teaspoon salt.
Have the steak ground as for hamburger. Season with salt and pepper. Melt one tablespoon drippings in frying pan and add onion cut in thin slices. Cook until light brown. Add meat and stir well. Add rice well washed, and let cook ten minutes. Stir frequently to prevent sticking. Cut core from cabbage, cutting as deep as possible. Put head into a deep pan and pour over boiling water to cover. Cover pan and let stand five minutes. Remove cabbage and drain. Pull off leaves. Use large leaves to stuff and put small leaves into pan in which the "birds" are to be cooked. Put one or two tablespoons of meat mixture on each large cabbage leaf.

Roll and fold. Put the folded side down on bed of cabbage. Pour over boiling water to barely cover, cover pan and cook about 45 minutes. Remove to hot platter and serve.

The Garden

Be ready for the first flight of all the kinds of bugs that pestered you last year. Get sprays and poisons ready.

Don't sow peas too thickly this year. You get more peas per vine when the vine has a free chance to do its best.

Plant a row of double blue cornflower for cutting in some out-of-the-way corner. The plants are not handsome, but the flowers make beautiful bouquets.

Plant multiploids in the open ground and let it take care of itself. Thin it when it looks big enough to take hold of, but not before. It has a habit of thinning itself by a certain portion of the young plants dying.

Don't forget a row of annual baby's breath gypsophila. The dainty white flowers are indispensable for bouquets. Get an ounce of seed and sow every two weeks. The pink form is also attractive.

Announcements

Daughters and granddaughters of Civil war veterans are requested to meet at the home of Mrs. J. R. Rhodes, 506 Spring street, at 2 o'clock tomorrow afternoon to organize a tent of Daughters of Veterans here.
