GUNMEN ACTIVE IN EUGENE, ORE.

Dealings of Alleged Bootleggers Revealed by Arrest in Grants Pass

EUGENE, Ore., Apr. 28 (AP)—Activities of alleged gunmen, said by officers to represent liquor runners who last winter lost a cargo of 110 gallons of grain alcohol in Eugene, were brought to light with the arrest of two men at Grants Pass Wednesday night, according to sheriff's officials today.

The arrest, as the story is unfolded here, is due to the work of James L. Strait, chief of police of Eugene, who followed the case, and induced Glen Wickwire, local auto-

mobile dealer, to swear to a complaint against three men, two of whom are alleged to be the men arrested at Grants Pass. The two men gave the names of F. W. Wolf and J. W. Wynne.

The story is that the car used by the alleged rum runners was wrecked on the highway near Creswell several months ago. Wickwire was called to tow the machine to a garage, but found the car too heavily loaded, and sent back for another car.

The cargo, said to be grain alcohol, bore an alleged value of \$1500. It was brought to the local garage. During the night the alleged liquor was removed from the garage, by unknown parties, according to Wickwire. Shortly after the occurrence two men arrived, and Wickwire was "taken for a ride." With guns leveled at him in the car, he was forced to sign checks for \$1,500 to cover the alleged cost of the stolen goods. Payment on the checks was stopped, and the alleged owners of the alcohol received nothing for their efforts.

Second Chapter The second chapter in the story opened here Tuesday, when it is said, three other gunmen arrived and let Wickwire know they were here to "knock somebody off" if the checks were not made good. An ambush was set, but the men evidently got wind of it, and drove southward. The arrests at Grants Pass followed.

Rupert Ships 786 Cars of Potatoes

RUPERT, Apr. 29.—During the winter season 786 cars of Idaho potatoes have been shipped from the local freight depot. It is reported. It is estimated by those in touch with the potato situation in this vicinity that there still remains about 30 cars of spuds, most of which will be shipped shortly. The shipments during the season are reported to have been approximately 100 cars in excess of the shipments for the season just previous. The majority of the cars shipped from here have been billed to Cincinnati and Chicago.

\$600,000 State Office Building Is Facing Suits

SALEM, Ore., Apr. 29 (AP)—Two suits to enjoin the state board of control from proceeding with the construction of the \$600,000 state office building authorized by the last legislature and financed through diversion of a like amount of money from the state industrial accident commission funds were filed in Marion county circuit court this morning.

Both suits allege the diversion of the invested funds of the accident commission to be unconstitutional. The plaintiffs in the first suit are the Eastern-Western Lumber company, Oregon-American Lumber company, and the Silver Falls Lumber company. Peter Pedersen is the plaintiff named in the second petition.

SEASON OPENS SUNDAY

PORTLAND, Ore., Apr. 29 (AP)—Commercial fishermen and state fish wardens of Oregon and Washington, are marshalling their forces along the Columbia river in readiness for the opening of the fishing season Sunday. The stream is being watched carefully for fishermen who go out ahead of time. Oregon officers have already taken between 100 and 125 nets out too early.

WOULD DELAY PROGRAM

WASHINGTON, Apr. 29 (AP)—In view of the unsettled situation facing railroad construction projects in California and Oregon, the Oregon, California and Eastern railroad asked the interstate commerce commission today to extend for six months from May 2, the period in which it has been ordered to begin a construction program the commission had previously authorized. The Oregon, California and Eastern is involved in the controversy between the Southern Pacific and the Hill railroads over the right to extend their lines in Oregon.

LONG TRIP TO WED

ROCHESTER, N. Y.—Miss Gertrude Gutsche has come from East London, South Africa to marry Benjamin E. Pate upon his graduation from the University of Rochester in June. He is also a South African and will enter the ministry.

Farm Pointers

Farm accounts are necessary in analyzing and reorganizing the farm business along profitable lines.

Low farm profits may result as well from poor judgment in selling as from poor judgment in growing the crop.

It is unsafe to crib corn containing more than 25 per cent of moisture without providing special but simple devices for drying it.

A hog will find shade in hot weather if he can, but if the shady place he discovers is also hot he does not seem to realize it and will stay there and die from overheating. It is best, therefore, to close any buildings that are not cool.

Farmers who have marshy places on their land that they contemplate draining should first consider the possibilities of these low spots as places for producing muskrats, growing fish or attracting water fowl.

Do not use soda in making cream of tomato soup. It changes the flavor and affects the vitamin content.

The amount of sugar consumed annually in the United States has increased by nearly 5,000,000,000 pounds since 1909.

A new hog cholera poster in red and black and typifying a hog of some of the various stages of cholera has been issued. Its purpose is to urge farmers to immunize their pigs with serum.

Oats exports from the United States this season have been more than six times as heavy as last year.

This board bill of introduced farm and fruit pests in the United States is more than a billion dollars a year! Two hours of every day's work on the farm or in the garden and orchard goes to feed these unwanted guests.

Scout Leaders To Meet This Evening

E. Russell Scott, scout executive of the Eastern Oregon Tri-county council, will address the boy scout leadership training school this evening, when the eighth meeting of the school and the last indoor session will be held in the basement of the Methodist Episcopal church. The last two of the series of ten meetings will be held out of doors. Mr. Scott's subject tonight will be "Scouting for Leadership."

Tonight's meeting will begin at 7:30 o'clock with assembly by parents, followed by the opening ceremony, and roll call. Five by five games will be demonstrated at 8:30 o'clock and discipline without a word. At 9 o'clock there will be the O'Grady drill and Dr. G. S. Hoffman will lead in the morale period. The meeting will close at 9:30.

BLAMES MOTHERS

PARIS, Ky.—Youth's failure to follow the straight and narrow path is attributed to mothers' precepts in the opinion of Mrs. Fannie Belle Sutherland, police judge of this city.

"If the modern mother's teachings are right," she avers, "there will be no trouble with the modern boy or girl." Mrs. Sutherland tries all classes of cases called in police court and has the reputation of having done much to clean up her little city.

NEW YORK—Creditors of Mrs. Dita De Acosta Lydig hope to realize something from her new book depicting what she terms "the fragile fallacy of fashionable life."

They intend to attach the proceeds. Their lawyers say they will examine her as to the reports that she is receiving an income of \$40,000 a year. In her bankruptcy petition she listed debts of \$94,000.

Cop Unable To Catch Speeding Robber in Auto

PORTLAND, Ore., Apr. 29 (AP)—Seeing an auto speeding along in the vicinity of East Forty-seventh and Main streets, with a man in the rear seat holding a revolver at the head of the driver, Patrolman Chamberlain gave chase in a police car but could not get up enough speed to effect a capture. He crashed his car into the curb-lux while turning a corner.

During the chase the man in the rear seat threw a revolver onto an adjacent lawn. It was recovered by Chamberlain.

What was evidently an attempted holdup was reported to police today by C. G. Stanley, who said that as he drew his car to a full stop in obedience to the stop sign, a man in a blue truck ran out from the curb and cried out at him.

Stanley stepped on the gas and escaped. He saw a second man in the shadows on the sidewalk.

Looking up suddenly, Mrs. Milton Marshall, 324 East Fifty-ninth street, found a burglar in her house about midnight.

The description she gave is the same as that of the burglar who was discovered early Wednesday morning in a bedroom by Margaret Marshall. In both cases he made a safe getaway.

COW WAS ATHLETIC

RANBURY, Eng.—Brig. Gen. Gage, D. S. O., who has been running a farm on feudal lines since helping to win the war, says he doesn't know anything about farming, so he had to develop his own methods.

"I went to buy a cow," he says, "and, knowing nothing about cows, I chose a nice looking one and told the farmer to make her jump a fence. She took it well, so I bought her."

What Is News? Is Answered By Wallach, In N. Y.

NEW YORK, Apr. 29 (AP)—The question of "What is News?" asked in a contest by the new school for social research, brought forth a definition of Mike Wallach attending a series of lectures on "Modern Journalism," which three judges of national repute today declared to be the best submitted.

"News," defines Mr. Wallach, "is a perishable commodity, distributed by the newspaper, marketed daily for consumption by the literate mind. It constitutes a written presentation of the events of the world, the nation, the state and the city in all fields of intellectual and emotional interest, such events being of sufficient importance socially, economically, politically, scientifically or individually, to engage the attention of vast numbers of people. Like any other commodity, its careful preparation, the quality of its ingredients, the integrity of its purpose, reflect credit or discredit upon the honor of its purveyors. Substitutes for truth, or adulteration of facts, cheapening of methods in the 'manufacture' of news constitute abuse of public trust and threats against the health of the public mind."

The judges were Walter Williams, dean of the school of journalism at the University of Missouri; Marlen Pew, editor of Editor and Publisher; and Gerald W. Johnson, assistant editor of the Baltimore Evening Sun and author of "What is News?"
