

ANNOUNCING THE OPENING

*Of Our Enlarged and Remodeled Furniture Store, Now Including
the Entire Room Formerly Occupied by Putman's, With a Special
Program and a Special Display*

Saturday Afternoon and Evening--

Greater Service Facilities

As a part of the enlarged service facilities a new electric elevator is being installed at the present time so that customers may be taken to the upper display floors with greater speed and convenience. A ladies' rest room has been conveniently provided on the first floor and out-of-town shoppers are especially invited to make the store their shopping center.

A new telephone system, connecting all departments and all floors, is another feature just added.

The addition of the store room formerly occupied by Putman's to our first floor furniture display space has been accomplished—the two rooms have been thrown into one large room, and it has been remodeled and redecorated during the last few weeks and presents, we believe, one of the best and largest furniture stores in this section.

Three upper floors provide a great amount of additional display room for our huge stock. Suites and separate pieces have been bought with this enlarged store facilities in mind and you are especially invited to visit us Saturday afternoon and evening, May 21. You will be welcome to go through the entire store—and there will be no insistence that you buy.

Music Provided For Saturday

As a special attraction during this first formal opening of the enlarged store we will have an orchestra to furnish music through the afternoon and evening and everyone is invited to make Bohnenkamp's Furniture Store their shopping headquarters during the day.

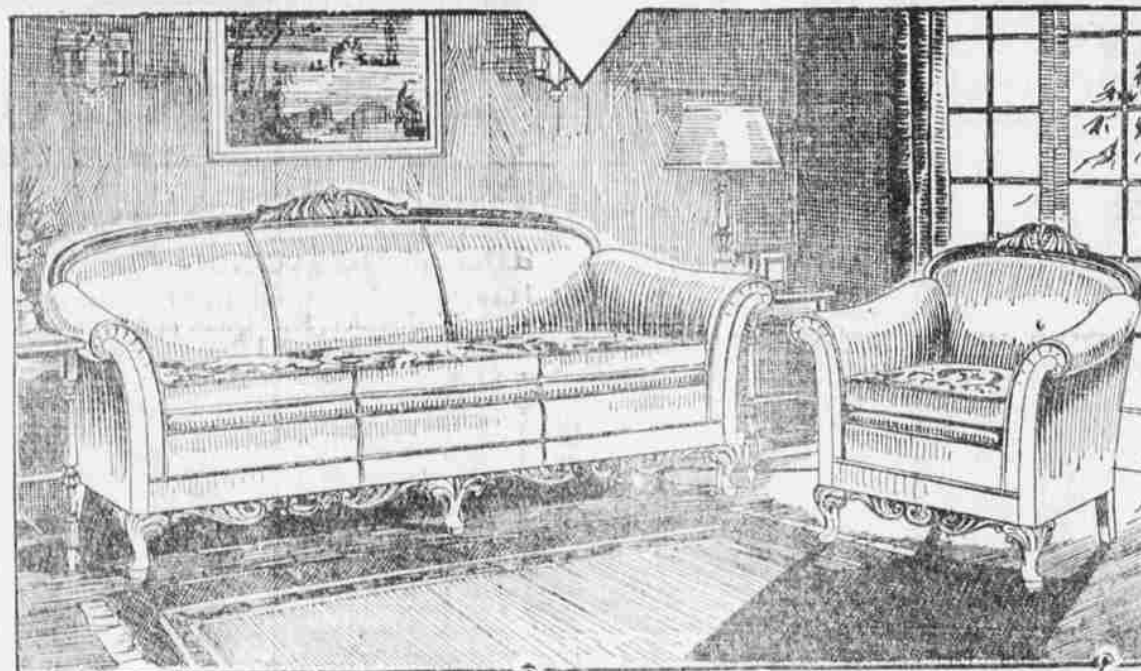

Members of the store organization will be ready to show you different departments or to give you detailed information on any special suite or piece in which you may be interested.

The Newest Styles In Quality Furniture

Fine Craftsmanship In Dining Suites

Having always stressed the quality requirements of everything we buy, particular attention has been given the dining room suites to insure finest cabinet craftsmanship. In no other pieces is cabinet work so important—and the newest creations are therefore not only beautifully finished but beautifully constructed.

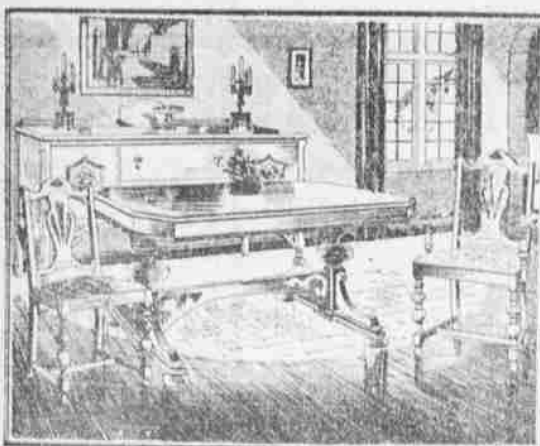

Especially charming effects are produced with crotch mahogany, burr walnut, and other contrasting wood uses. The finish that is especially popular for dining pieces and most satisfactory in wear is lacquer. You may see either the table and chairs suites or those having also the prettiest buffets, servers, and china cabinets.

Lacquer Gives Best Decorative Color

With the marked advent of color in wide and brilliant variety into home interiors the last few years, lacquer finishes in choice colors have become extremely possible. They provide a soft, velvet finish and, in bedroom especially, permit the proper expression of individual tastes that is most pleasing.

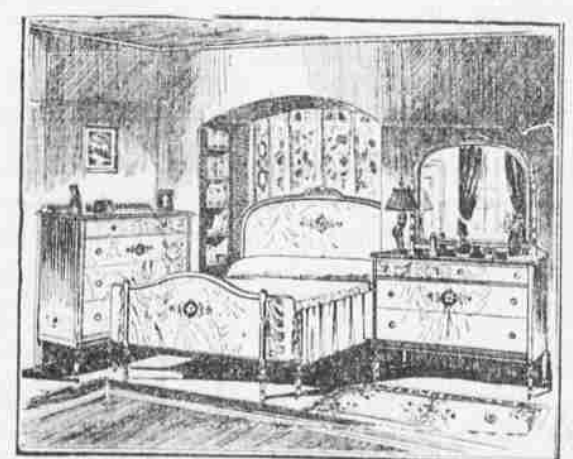

Although fine walnut and mahogany bedroom suites are and will continue in excellent taste, you'll find many lacquer colored groups that will attract you at once. Many are hand decorated, as well, and suggest smart draperies to match in completing a very cheerful room. Suites have two, three, or more pieces.

New Living Room Pieces

YOUR living room invites new arrangements, new and more appropriate pieces, especially at this time of year. With a sofa and arm chair similar to the suite illustrated, you have a center group about which you can plan a most successful interior. There are a host of new suites and pieces that suggest added charm for any living room—odd tables and new occasional chairs—pretty lamps and decorative as well as practical desks. New reed furniture, for summer comfort, will also interest you.

Whatever your requirements, convenient terms of payments can at once be arranged if you desire. Every piece in every department is completely guaranteed.

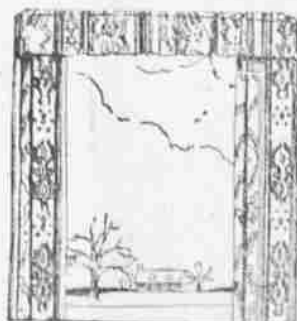

A New Dep't--Ready-Made Draperies

As an additional service to home owners of this territory we have just opened a new department—ready-made curtains and draperies—that will immediately appeal to you for their economy and beauty and for the saving in curtain making.

The draperies are available in complete

sets with novelty curtains, ruffled valances and ruffled tie-backs, sold per window unit. They are made in standard sizes with varying length and give you smartest drapery sets, ready to hang, at moderate cost. Prettiest patterns and charming materials are here in variety for practically every room in the home. We urge that you see them when you come in Saturday.

Special Opening Day Values!

ALL OCCASIONAL CHAIRS—A very large stock of stunning throne, fire-side, and arm chairs—every odd chair in the store—reduced in price especially for our formal opening. Beautifully upholstered, expertly designed, these offer an unusual opportunity for one day only. All occasional chairs on sale at
