SHARKEY WHIPS JIMMY MALONEY

Technical Knockout in 5th Round in Reality a Straight "Kayo"

NEW YORK, May 21 (AP)—Jack Sharkey, Boston fighter of Lithuanian ancestry, landed today a formidable contender for the heavyweight crown.

With a tigerish two-fisted attack he battered his way to a technical knockout victory over his fellow Bostonian, Jimmy Maloney, in the fifth round of their battle at the Yankee stadium last night.

Lying in wait through the earlier rounds, the lithe ex-sailor held the fire of his charge until the fourth round when he sprang with a fury that sent Maloney to the floor with a smashing right to the jaw. As Maloney bounded to his feet the bell changed, but his head still was dizzy as the fifth began.

Attack Terrific

The swift-striding Sharkey, teeth clenched, eyes glinting, went in for the kill. Another wild, desperate rush by the bruised and bleeding Maloney, then Sharkey's swinging left hook shook his opponent to his heels and an overhead right and left, landing almost together, swung him clear off his feet.

Maloney tried to rise, turning toward the towering ex-sailor whom he could hardly see through closing eyes. A struggle almost to one knee, and he fell forward, all but senseless. The referee intervened.

But the count was over. "Technical knockout," the end was called, but it carried all the finality of a straight "kayo."

La Grande Club Will Play Cove At Cove Sunday

Weather permitting, the La Grande baseball club will play at Cove tomorrow afternoon. Cove is leading the league with three wins and no losses and La Grande has as yet failed to win in two starts. The team will leave for the Imperial about 12:30 o'clock. Willamette university's nine, which will play the College of Idaho at Caldwell Wednesday, for the northwest conference championship will stop over here Tuesday afternoon and meet the La Grande club on the high school field at 2 o'clock in an exhibition game.

The La Grande team will be strengthened for the engagement. Steve Keene, who was in La Grande in 1924 and who is now coaching the Willamette team, will probably occupy the mound for the victors.

RED DOON CONVINCED CATCHERS HAVE CINCH

ATLANTA—Big league baseball fathers of today have a real cinch, in the opinion of Charles "Red" Doon.

"Red" says this is because the players' new attempt at creating whereas such theory played an important part in games of not so many years ago.

Doon spent 14 years in the major leagues and retired in 1913 at the age of 42 to go into vaudeville.

"Presumably I'd see my last show would become mine," Doon says. "But it hasn't yet."

ALLEN IS LOSER AT PENDLETON

Corvallis Welter Wins on Points—Earl Ford Kayos Oscar Fike

PENDLETON, May 21 (AP)—Johnny Motej of Corvallis, welterweight, took a well-earned ten-round decision over Earl Ford of La Grande here last night in the main event of an American Legion boxing card. Motej had a clear lead in the majority of the rounds.

Moss Bamister, Athens, knocked out Hercules Hankirk of Pendleton in the first round of the scheduled six-round semi-final.

Hugh White, Pendleton, kayped Floyd Cutler, Pendleton, in the first round, and Earl Ford, La Grande, put Oscar Fike, Pendleton, down for the point in the second round of the two preliminaries.

Several local fans attended the fight at Pendleton last night, and all reported the entire card was excellent. Motej, who won the decision from Athens, outboxed the local fan during most of the rounds but in one frame he carried the fight to the Corvallis welter and had a clear lead for that frame.

Oscar Fike, who went down before Earl Ford, of La Grande, was larger and heavier than the local boy but was unable to withstand the vicious attack.

Weather Doubtful For Annual Meet

EUGENE, May 21 (AP)—With the weather uncertain, and the outcome of the meet over more uncertain, the Oregon Agricultural college and University of Oregon track teams will battle it out in their annual dual meet here this afternoon.

Each team is doped as superior in six events, with the remaining three events uncertain. Breaks are expected to go a long way toward deciding the meet.

Heavy showers of the past few days, and overcast skies today, gave indication of a rather slow track.

LOUGHRAN CONVICT OF BEATING DELANEY

PHILADELPHIA—Tommy Loughran, Philadelphia's hope among the light heavyweight contenders, plans a heroic campaign in the 175-pound ranks if he ever gains the crown of Jack Delaney.

"After I whip Mike McTigue and win the title from Delaney, I'll fight four times a year," he says. "Then if I lose the championship I'll still be good for two of my best years in the ring. I'll always have time to win it back again." Loughran is 24 years old.

YALE CREW COACH USES PSYCHOLOGY

NEW HAVEN — Psychology plays no little part in the rowing season of Ed. Foster, who has coached winning Yale crews for four successive years and seems headed for another triumphant campaign.

For instance, there is the red flag that Eli rowers use as a sprint signal to their oarsmen. It was flashed for the first time when Yale's winning crew was defeated a year ago in a close race with Pennsylvania. It was banned out by the turnover of all three Yale crews in the Harkness Cup regatta recently, but it was banished necessary as the 721 boatloads swept to decisive victories over Columbia and Penn.

Yale crews also have a habit of taking a fast but brief warm-up pull just before going to their starting marks. It is usually timed so that rival crews will get an eye-full of full speed and power before the race.

A Stabilized Industry
 A Dependable Investment

Development of the Black Marble & Lime Company's deposits on a four-kiln basis—assuring a sufficient production volume to supply the markets that are already obviously available—with most modern equipment to insure efficient and economical manufacturing. That is the purpose of the directors and stockholders.

To this end two-thirds of the quarter million dollar capital stock has already been purchased and much of the plant equipment is already bought and being put in readiness for operation. Less than a third of the shares remain available. Their sale will provide funds for the completion and starting of the industry.

Without doubt, the same sound business reasoning and the same attractive return from a basic manufacturing enterprise that have convinced these present stockholders of the merit of the investment will result in the sale of the remaining block in the next few weeks. Profitable production will be possible this season.

If you are interested in building up an investment estate outside of your present business or occupation, the chance to be one of the owners of the Black Marble company deserves an immediate and thorough investigation. Organized and directed by substantial Union and Wallowa county citizens—with rarest deposit resources and an ever-widening market—the opportunity for dividends and stock valuation increase is unusual.

Purchase may be made in units of \$100, and you may have complete details concerning the entire project by calling at the office of the President, Chas. A. Bingaman, in the New Sommer building. We will be glad to discuss this with you, without obligation on your part.

As information concerning this remarkable industry is spreading rapidly and the investment is more and more in demand, we urge your immediate consideration and action. Only a comparatively small amount of stock remains.
