The league baseball fans today had the thrilling prospect of a duel between Chicago White Sox pitching and New York Yankees batting with the leadership of the American league at stake.

In their last game before the series with the Yankees, the Sox and White Sox yesterday administered a 10 to 2 defeat to the Boston Red Sox for their fourth straight victory in the east and a clean sweep of the series. Since the Yankees were late yesterday the victory carried the Sox to within 24 percentage points of the leaders.

Meanwhile Connie Mack of the Athletics was tinkering with his club's machinery to see what was keeping it from going faster. The result of reworking the lineup was a 4 to 1 victory over the Cleveland Indians.

A 2 to 1 victory for the league-leading Pirates over the Phillies added to their lead while the Cardinals also quickened their pace by defeating the Boston Braves, 4 to 3, in ten innings the Chicago Cubs pushed into a tie with the Giants for third place. The Giants were idle.

America is sure, the navy's little war on the coast proved. Now we can step out and buy a straw hat.

Swimmers Seeking New Dangers To Quicken Public Interest in the Sport

By Edward J. Neil
(Associated Press Sports Writer)
NEW YORK, June 7 (AP)—Long distance swimmers who kicked and "rowed" such temptations waters as the Catalina and English channels into submission are looking for new tips and cross-currents to conquer.

Just like the man who found it necessary to "take a dose" to make "snow", so the overland pluggers have turned to the hardships of freezing water, new and uncharted sea courses, and unique performances to quicken public interest.

Twins to Swim
Perhaps the most unique effort in the coming season has been scheduled by the 12-year-old Zittelfield twins, Bernice and Ithyllis, of New York, who plan to swim the English channel simultaneously but in opposite directions.

The father of the girls has announced that one will start from Dover, carrying a British flag, and the other from the French coast, bearing a French emblem, with the intention of meeting and swapping flags in mid-channel.

The youngsters, who swim fifteen miles down the Hudson river, from Yonkers to the Battery, last fall, have listed as conditioning efforts attempts to break the river records at five, ten and fifteen miles as well as swims "round Manhattan" on June 19, Sandy Hook to the Battery, a 21-mile swim, on June 26, and the Lake George marathon.

New England has \$25,000 to spend on a race across the 26 miles of rip-ruffled, tide-torn water that separates Nantucket and Cape Cod. The event, over a course never before attempted and troublesome even to sailors, has been set for Sept. 2. Entries already have been received from "Cogan", who holds the "round Manhattan" record of 12 hours, four minutes, and his brother Andrew, Miss Effrieda Living, of New Bedford, Mass.; Alfred Mitchell, of Boston, former Olympic swimmer; May Russell, of Roxbury, 17-year-old record holder for the Boston Light swim; and Edwin C. Moody Jr., of North Attlefield, Mass.

The waters of three cities on the Pacific coast—Alameda, Oakland, and San Francisco, Cal.—will draw long distance swimmer for a 14-mile turn around Alameda Island on May 20. The swimmer will receive \$1,000 and the first woman to finish \$500. Mrs. L. B. Forrester, of Long Beach, Cal., who covered 12 miles of the Catalina channel race, is among the early entries.

DETROIT (AP)—After watching the Tigers under a new manager Detroit fans have concluded that Ty Cobb was too good a ball player to succeed as a manager.

The same truth, except of second hand, which Cobb sought vainly to pull to the top, has shown improved play under George Marinaro. Cobb always was an intense player, showed and lightning fast in judgment, he found it difficult in a manager to realize that other players lacked some of these qualities. Able to hit in pinches and great bases himself, he could not understand why other players could not do it. This attitude led to discontent.

Modesty, on the other hand, without playing sorrow, has craved played diplomacy in handling the team, seeking to avoid rather than the sometimes impetuous players.

Japanese Girl Athlete Would Be Sports Writer

TOYOYO (AP)—Miss Kinuyo Hitomi, Japan's leading girl athlete, who recently established two new world records at the Meiji Shrine athletic meet in Tokyo, is hard at work learning to be a journalist. She is employed in the sporting department of the Osaka Mainichi and hopes to become the first woman sports editor of the country.

At the Meiji meet Miss Hitomi made the standing broad jump at 2.61 meters, breaking the world's record of 2.56 meters held by Miss Camilla Sabih of the United States. She also ran 200 meters in 24.1 seconds, eclipsing the world's record held by Miss Whitmann of Germany at 27.4. The new records, however, are official only in Japan.

Miss Hitomi gained world-wide attention at the International Women's Olympic meet in Sweden last summer by establishing a new world's broad jump record of 2.49 meters.

Miss Hitomi is 20 years old and is 5 feet, six inches in height, an unusual stature for Japanese girls. When not engaged in athletics and in reportorial work, she spends her time in reading and sewing. She says she is not particularly fond of men and has no idea of getting married, at least for some years to come.

Has channel both ways in a single hop this summer.

This mission probably will force Mrs. Schommer from the 22-mile marathon scheduled for July 11 on Lake George, N. Y., a body of water noted for frigid currents and wide variance of temperatures. But sponsors of the \$25,000 grand, a popular figure now in distance swimming, hope to lure to the lake Gertrude Ederle, George Young, Miss Corson, Elizabeth Barrett, New Rochelle school teacher; Henry Sullivan, of Lowell, Mass., only conqueror of the English and Catalina channels; George Creagan, of Paterson, N. J.; Charles Tubb, of Boston; Norman Ross, of Chicago, and other distance champions.

CAMELS
passed them all

—figure it out for yourself

IT'S the cigarette of the age — the triumph of all smoking history. Just reflect—at the time when more cigarettes are smoked than ever before—Camels passed them all.

Why? Figure it out and you'll find that Camel is made for the particular smoker whose taste, day by day, is more knowing of quality. Camels are rolled of the choicest Turkish and Domestic tobaccos grown. And what blending! Camel's smoothness and mellowness are qualities distinctive to this cigarette.

If you haven't yet tried them, you'll find all your smoking wishes come true in Camels. Mild, clear and smooth from morning to night. Always so satisfyingly good! "Have a Camel!"

SEIN HEARING DATE

SALFEM, Ore., June 7 (AP)—The state supreme court has set June 21 as the date to hear arguments in the case of Peter Pederson and others against the state board of control, a suit to enjoin the construction of a new state office building with funds of the state industrial accident commission as authorized by an act of the 1927 legislature. The estimated cost of the building is \$400,000. In the lower court for Marion county, Judge L. H. McMahon held for the petitioners for the injunction.

AMERICAN GIRL WINS MUSIC PRIZE TWICE

NEW YORK — Mildred Seftin, the young soprano who has held the Caruso Foundation scholarship for two successive years, will re-

turn to the United States this summer to arrange for a series of public appearances.

Miss Seftin, who was born in Jacksonville, Fla., made her debut in Baltimore, Md., soon after graduation from high school and won the Caruso scholarship. This entitled her to a year's study abroad. Her success was so marked during that year that Gatti-Casazza, director of the Metropolitan Opera company, hearing her sing in Italy, recommended that a second year's scholarship be given to her.

The grandstand is more than half way finished. All preliminary work on the grounds and buildings probably will be completed early in 1928.

SAN ANGELO, Texas (AP)—Monard county ranchman lost no time for the sportsmen who shoot the live, heavy-winged pigeons at Monte Carlo. They get their sport by shooting birds.

A germ carrying bird, the harbinger in the particular enemy of stockmen, whose traps are built to catch them. Two thousands were caught in one trap during 1926.

After a number have been collected they are released before a squad of shotgun in the hands of the ranchman. Regular meets are held.
