Distribution Without Waste

Thousand 'Store-Power'

Like the man who operates an engine of enormous "horse-power," the Saffeway Man—through the thousand "store-power" at his command—is equipped to far outdistance all others in the race to satisfactorily serve the food-buying public. Never before, in the history of Western merchandising, have such facilities for handling the necessities of life without waste been available to men trained in their efficient operation. Such facilities in the hands of an organization of men whose inflexible purpose it is to reduce waste in distribution to the minimum have enabled us to wipe out many useless profits and overheads which the ordinary dealer must pay and add to the price he charges the consumer. Through this unparalleled "store-power" the "spread" between producer and consumer is materially reduced—to your very great profit.
