Boston	13	18	.420

By the Associated Press
With the White Sox trying hard to lead temporarily in their drive to win the American league, the Cubs are making a special bid of their own.

A winning streak which has run wild them to a game and a half behind the pace-setting Pirates was broken in their eighth victory by a 2 to 1 defeat at the hands of Senators Jimmy White Sox.

Washington has been a punch for the White Sox before and proved so again yesterday in shutting out the second place team, 10 to 0, in the third straight win of the week.

A good exhibition of the new way the Yankees usually win their last games was given as they routed the Cleveland Indians, 14 to 6, on the wings of two home runs and two other hits. Names not quite so familiar as those of Ruth and Gehrig were in the lineup on this occasion.

The Athletics, in the grounds with their record nearly equal to that of the White Sox in reaching by means of Detroit, 3 to 0, while St. Louis defeated the Braves at the top of the second division by beating the Red Sox 2 to 1.

After taking two on the club in two consecutive days from the Brooklyn Trolley the Yankees came back to complete division of their season leadership by routing the Indians, 4 to 3, Paul Waner, the week work, accounted for two of the runs in the win with a home run.

Sure Pleased

Here's something you seldom see, an honest-to-goodness smile on Miller Ruggins' face. He has scores of excesses to be smiling continuously this season as his Yankees individually and collectively, are setting a dizzy pace in the American League.

United States Tires are Good Tires

PLENTY OF RUBBER in United States Tires starts out in the Far East—the United States Rubber Company's Plantation. This company owns 10,000,000 rubber trees—enough to make an unbroken line nearly twice around the earth. Seven million of these trees are producing rubber.

YOU'VE a question to ask— "How do I know that there's plenty of Rubber in Royal Cord Balloons?"
A natural question. You can't see all this "plenty of rubber"—and you can't tell it by weighing the tires. A tire manufacturer can make a tire weigh almost anything he pleases by "loading" it with heavy substances which add nothing to the wear.

The "Plenty of Rubber" in Royal Cord Balloons is distributed where it will do the most good. Take our word for it—until you prove it for yourself on the wheels of your car.
