"CAME THE DAWN, ETC." A new camera makes home movies possible in four minutes. But they'll surely fail because the lady in the adjacent seat won't be there to read the titles about. . . . And no movie can get very far which doesn't bring "into this valley of divine love a human jocular stalling." . . . Of course there need be no lack of comedy as long as the pantry holds out.

## AT THE THEATERS

### "Rolled Stockings" At Arcade Theater Today, Wednesday

Physician—What you need is more exercise.  
Patient—I'll do it if you say so, doctor, but I'm usually mighty tired after swinging a sledge all day.

"Wisdom cautions the face to shine," says the Bible. But we've never seen anybody with enough of it to have to use dimmers.

Ted—Let me kiss you good night.  
Edna—I am saving my kisses.  
Ted—Then let me add a couple to your collection.

A judge in a divorce court says, "It is better to have loved and lost—much better."

**SONG OF LOVE**  
Love love love, love love love,  
Love love love, love love love,  
Love love love, love love love,  
Love love love, love love love.

**KEEPING IT DARK**  
The Missionary Circle will meet at Mrs. DuMez' Friday afternoon. After meeting they will have a birthday party in honor of Mrs. L. McManis. This will be a surprise to her.

**IMPERSONATIONS**  
Little Willis is a funny, and eccentric little wail. Scawalled all his sister's money—said that he was "playing safe."

When one gets corns from dancing the Charleston they should be soaked; also the head.

Before marriage he caught her in his arms every night, now he catches her in his pockets.

There are no free scholarships in the school of experience.

June is the one month of the year for marriages. All the rest of the year is required for divorces.

Saint Patrick drove the snakes out of Ireland, but Saint Volstead enables one to still see a few in this country.

**NORTH POWDER PERSONALS**

**NORTH POWDER (Special)**—Herbert Younce, of Jimmy creek, had the misfortune of breaking his left arm recently while harnessing a horse. The horse backed the boy up into the stall and in some way caught his arm so as to break it.

Mr. and Mrs. C. E. Hutchinson were La Grande visitors Friday.

Mr. and Mrs. Reta Olsen are the parents of a baby girl born Thursday.

Harold Parker, son of Mr. and Mrs. H. H. Parker, is working for the Citizens National bank, of Baker.

Mr. and Mrs. John Haynes have been confined to their homes for a week of the "flu" although both are up and around now. Mrs. Haynes is still suffering a slight effect from her illness with trouble in her ear.

The noise of two goldfish swimming in front of the microphone, amplified ten million times, sounded in the radio audience like the drumming of a horse's hoofs on a hard road; the beating of a man's heart sounded like the thump of a ship's engine; and the ticking of a watch, similar to the crashing of a compressed air drill.

Go through life seeking a "kick" and you'll probably get several.

the lovely young thing who is the cause of all the shooting, and Raye Hampton is immense as the "lady" ranch boss—that we will swear to. Richard Lee, George Magrill and Ann Warrington were well cast in their respective parts, and Richard Thorpe contributed some mastery direction. The story was written by Tommie Gray—and Tommie certainly knows how to write stories to intrigue the most blasé fan.

You really owe it to yourself to see "The Cyclone Cowboy" and the comedy "That's No Excuse."

## Farm Pointers

Green foliage is essential to the economic production of pork. Alfalfa, where it can be grown, undoubtedly is the best forage crop for hogs. On an average, one acre of permanent pasture is needed for each brood sow. If rapid gains are desired, hogs may be given a liberal allowance of grain. Exercise obtained in grazing exerts a beneficial influence on the health of swine.

Flies are common enemies of health. They breed in filth and from filth they may carry contagion into the homes and to the food. On dairy farms they are attracted by the cattle, accumulations of manure, spilled milk and other feeding or breeding grounds. Special care should be taken to exclude them from places where milk is handled or stored. If they gain access to milk, or walk over milk utensils, they may be dangerous contamination.

A study of the cost of living among 3,000 widely scattered farm families indicates that the average total value of goods and services used per family in one year is \$1,614. Of this value \$324 was furnished by the farm in food, fuel and housing.

The most important factor in the large spreads between prices received by producers and those paid by consumers of agricultural products is the cost of extensive services as a result of present-day methods of living. The greater portion of the difference between producer and consumer price is incurred in terminal markets.

A cow should return at least two dollars from a dollar's worth of milk.

feed. This is flourishing farm value from both feed and milk. With proper management good cows may do much better.

One of the greatest sources of sour milk and low-grade dairy products is the unsterilized uterine. The tiny bacteria that cause souring, off-flavors, and sometimes a sickness, grow very fast on the moist surfaces of unsterilized pails, strainers and cans. Although sterilizers have been used, they do not really clean unless they have been sterilized.
