CHERRY CROP RIPENING IN GRANDE RONDE

Warm Weather Brings on Fruit—Picking to Begin Early Next Week

YIELD LESS THAN HALF OF NORMAL

Pickers Will Be Paid About 2 Cents a Pound —Exports to Be Made Through La Grande

With the warm weather of the past few days cherries are ripening rapidly in Union county and picking will start early next week. The cherry crop over all the county is very light this year, however, and the picking will not require much time.

The first cherries to be picked will be the royal annes, which are now nearly ripe. Picking will not start in the bing and lambert orchards until later. Because of the scattering crop cherry pickers will probably be paid about two cents a pound.

There will be very little cherry picking in La Grande this year as compared with last year, when 20 carloads were exported. There will probably not be more than three carloads sent out from the orchards surrounding La Grande this year, R. M. Durland, of the Blue Mountain Fruit Exchange here, reports. This year's crop is about 20 per cent of the normal year, according to him.

Cove Crop Prospects

In the Cove district the royal annes and a few scattered bings will be ripe next week although the main crop of lamberts, bings and similar types will not be ready for a couple of weeks. Sour cherries will be ready to pick in a week or ten days.

The cherry crop in the Cove district, while of better than normal quality, is slightly less than 50 per cent in quantity, due to the killing of a large percentage of the wood in the orchards during the past winter. The bearing wood is producing a good crop but with so much of the orchards still "sick", the total yield is held down to half or less.

It is generally believed that, unless a particularly severe winter occurs, the trees will be fully recovered next year.

Ship Through La Grande

What cherries from Cove are exported this year will be shipped out via La Grande. The boxes will be trucked to this city and thence transferred to fruit cars bound east.

The good road between Cove and La Grande, coupled with better shipping facilities than are available at Union Junction, is throwing practically all of the cherry exports through this city.

90-ABOVE DAY EXPECTED; TWO 89 MARKS MADE

La Grande is apt to get its first 90-degrees-above weather of the year today, according to indications this morning. Yesterday and Wednesday the thermometer stopped its upward climb at 89 above but this morning, at 7:30 o'clock, the mercury was at 56, three degrees warmer than on either of the other mornings. If this difference continues, a temperature of 92 or 93 is likely, local observers believe.

The presence of a light wind over La Grande last night prevented the mercury from going above the 56 mark, it is said. Above the 60 mark, the nights are too warm to permit comfortable sleeping under ordinary conditions.

Both yesterday and Wednesday were the warmest days since last summer.

YOUR SALES RESISTANCE

Everyone who spends money, who buys something, has what the seller calls "sales resistance" that must be overcome before the sale can be completed.

Your sales resistance is greatest when someone trys to sell you something you know nothing about—and it is most easily overcome when you know and are familiar with the goods or service that is being presented. Your sales resistance is broken down through consistent advertising because it is a recognized method by which you are informed, because you know that you can have faith in advertised things, in the advertised store. It is but natural, therefore, that a business firm seeking to build confidence and overcome sales resistance should use The Observer constantly in covering the La Grande territory.

Band to Appear In Concert Here At School Field

Recital to Begin at 8 O'clock This Evening—Program Announced by Mr. Loney Today.

With all indications pointing to a large crowd and with what is said to be an excellent program carefully rehearsed, the La Grande municipal band will play its second outdoor concert of the season this evening at 8 o'clock at the high school athletic field.

The grand stand has been recently renovated so that conditions are almost ideal at the field for concerts of this nature.

According to Director Andrew Loney, all encores played will be either novelty numbers or popular numbers. The band has recently secured some of the latest popular selections from Chicago.

The program for the concert tonight follows:

March, "Father of Victory" Ganne
Suite, "Dwellers of the Western World" Sousa
(a) The White Man
(b) The Black Man
"Aase's Death" from the "Peer Gynt Suite" Grieg
Scenes from the musical fantasy "Woodland" Luders
INTERMISSION
"Hungarian Fantasia" Moses-Tobani
Clarinet solo "Romance and Polacca" Le Thiere
Roy Mattoon
Overture, "Orpheus" Offenbach

Golfers Prepare For Inter-City Match July 17

An inter-city golf tournament with Baker will be held on the local golf links Sunday, July 17. This Sunday the La Grande club will have 18 holes of qualifying play on the links here to determine the players and the order of play for the Baker tournament. All members are urged to arrange to play Sunday, and if they are not able to do so are asked to arrange with the tournament committee for other dates. Score cards must be in by Sunday evening.

The balance of the regular greens at the new links here will be open for play about July 15, which will give the members two days for practice before the tournament with Baker on July 17.

Arrangements are being made for the club handicap championship, which will start the first of August, to play for the cup donated by the Oregon Hardware company and won two years ago by Harry Zurbrick. The cup was not played for last year.

Western Union Puts In New Equipment

Extra equipment, made necessary by the growth of La Grande with its resulting larger volume of business, is now being installed in the local Western Union Telegraph company offices on Adams avenue. A duplex, which will permit the sending of two messages on one wire at the same time, is the newest addition to the telegraph equipment and it will be ready for use within a week or 10 days, according to Fred Terpany, local manager.

Arrest Peterson On Liquor Charge

O. A. Peterson appeared in the justice court this morning and pleaded not guilty to a charge of driving while drunk. Bonds were set at $200, which he furnished and was released. Trial was set for Friday morning, July 15, at 10 o'clock.

Peterson was arrested late yesterday on the Old Oregon Trail highway between La Grande and Lone Tree.

Woman New Chief of U. S. Educators

SEATTLE, July 8, (AP)—Miss Cordelia Storrs Adair, class room school teacher of Richmond, Va., became president of the National Educational association at the close of the general session of the organization here today. Formal announcement of her election came last on the association's business program.

TIMES HAVE CHANGED

BALTIMORE—With traffic congestion growing here, old-timers have recalled the excuse offered by the first man arrested for a violation of traffic laws. He insisted to the magistrate that he could drive his horse and carriage on either side of the street and could turn around as he pleased. And he was only reprimanded and released.

BURNED MORTALLY

PORTLAND, Ore., July 8 (AP)—Marguerite McGillis, 6, was so badly burned today while playing with matches at her home that hospital attendants feared she could not recover.

WEST OREGON MAN ACCUSED OF SLAYING

Authorities Arrest Alvin McCurdy After Wife Is Cremated

AUTOPSY REVEALS WOUNDS IN SKULL

Husband May Have Fired Bungalow After Murdering Spouse, Sheriff Believes.

OREGON CITY, Ore., July 8 (AP)—That Mrs. Ethel McCurdy, of Canemah, was murdered and the house in which she lived with her husband was set afire and burned to the ground to hide the crime was the belief of Clackamas county officials following an autopsy after the finding of the body today. The woman's husband, Alvin McCurdy, a fireman employed by the Hawley Paper company, was arrested this afternoon by Sheriff Mass, who said a charge of murder would be filed against him. He was suffering from several cuts and burns.

The autopsy showed four deep wounds on Mrs. McCurdy's head, any one of which could have caused her death, said Coroner O. A. Pace. The wounds had apparently been inflicted with a blunt instrument, one on each side of the head, one on top and another at the base of the skull.

Body Under Bed

Mrs. McCurdy's body was found in the smouldering ruins of the McCurdy home which was completely destroyed by fire of undetermined origin early this morning. The body was found under the bed.

Neighbors aroused by the fire report they saw Alvin McCurdy, the husband, outside the house dressed only in trousers, shoes and undershirt. His hands and clothing were burned, it was stated, and he was attempting to re-enter the burning building when first seen.

"Thought Her Safe"

When asked if his wife had gotten out of the house, he replied that he thought she had, neighbors reported. A number of articles of furniture were taken from the burning building by neighbors before flames made entrance impossible.

The McCurdy home was a five

GRANGE PICNIC ATTRACTS MANY

O. A. C. Board of Regents and State Officers to Attend Annual Event

Final preparations are being made today for the annual Union county grange picnic, which will be held at the Union experiment station tomorrow.

Not only will a large number of grange members from this part of the state be present, but an extra large group of outside speakers will attend, W. R. Gekeler reports.

The board of regents of the O. A. C. are to participate in the picnic and several county agents over the state. Director Jardine of Oregon experiment stations, Professor Hyslop, of the O. A. C. extension service, ex-Governor Walter M. Pierce and others will attend.

Governor I. L. Patterson and State Master George Palmiter are on the board of regents but it is not known definitely if they will come.

Director Robert Withycombe, of the Union station, is superintending the decorating of the speaker's stand and arranging general preliminaries for the picnic. The morning will be devoted to inspec-

Crisis In Naval Conference Not Eased Greatly

British Hint that Large Warships Are Aggressive Rather Than Defensive Weapons.

GENEVA, July 8 (AP)—That the crisis in the tri-partite naval conference is far from heated and not only continues, but has become acute, was indicated by a statement issued to the press this afternoon by W. C. Bridgeman, first lord of the British admiralty.

Without naming the United States, Mr. Bridgeman hinted broadly that maximum large sized warships might be construed as aggressive rather than defensive.

The first lord declared it was impossible to arrive at a low total tonnage if the maximum tonnage in each type of warship was to be pushed up into types that became aggressive weapons.

British Misunderstood?

Arguing that the British proposals were based entirely on a desire to give Great Britain proper security and defense, he said:

"The more that is understood, the more will be the hope of getting an agreement."

Mr. Bridgeman declared that Great Britain did not favor the 10,000 ton "offensive cruisers," when these were authorized at the Washington conference of 1922, and that she only has them now because she was obliged to build some in self protection.

Hence it was not Great Britain's fault if her total tonnage was high, he said as "it has been forced upon us."

The first lord referred to the recent statement of Georges Leygues, French minister of marines, as one which coincided with the principles of the British position and as advocating the British claims.

French Viewpoint

M. Leygues was quoted as saying that a nation should have a fleet in proportion to the place it had occupied on the seas for centuries.

Mr. Bridgeman's statement was taken as a reply to the insistence of the American delegation upon the right of the United States to maintain cruisers of the 10,000 ton class.

Freight Rates On Stock Down, Effective Now

SPOKANE, Wash., July 8, (AP)—Freight rates on livestock shipped from Union Pacific branch lines in Oregon to Spokane were reduced 12½ per cent today, to equalize rates on such shipments to Portland. This was announced by C. O. Bergan, general manager of the Spokane merchants association, which made application for the reduction. Main line rates were not affected as they have been on the same basis for Spokane and Portland.

PORTLAND, Ore., July 8, (AP)—A reduced uniform rate scale should apply at all points west of the Missouri river on all classes of livestock, said T. W. Tomlinson, secretary of the American National Livestock association, at today's session of the western livestock freight rate hearing before Examiners Stiles and Parker of the interstate commerce commission.

Non-Stop Flight To Tokyo Planned

WICHITA, Kan., July 8, (AP)—John Spaulding, 30, of this city will make a non-stop flight from Seattle, Wash., to Tokyo, Japan, he revealed today, in announcing that several Kansas and Oklahoma oil operators were planning to give him financial backing for the flight.

Spaulding is a graduate of the United States naval academy at Annapolis, Md., an experienced navigator, world war veteran and aviator.

Ritchie Compares U. S. Government With Forms in Italy and Russia

FRENCH LICK, Ind., July 8, (AP)—The United States is passing from a government of law to a government of men, and a power that often approaches tyranny has been vested in the federal government, Governor Albert C. Ritchie, of Maryland, declared in an address here today before the annual meeting of the Indiana State Bar association.

"The government is no longer the creator and protector of our individual rights but is rapidly becoming the dictator of them," the speaker asserted. "Today local self government furnishes the only efficient, workable basis which the diversified and changing problems in our diversified and changing land can ever be practically settled."

The American government has become the most regulatory in the western world, outside of Russia and Italy, Governor Ritchie asserted. He declared inspectors and spies and official regulators follow the American from the day he takes his first nourishment.

"Contempt Due to Unholy Zeal"

"Here he is told what he may eat, what he may smoke and everywhere what he may drink. What he may read or write or see on the stage is prescribed too, and not content with this, his government advises him how to hang his curtains in his home, what meat to cook for his Christmas dinner and not two months ago the department of agriculture distributed throughout the country a treatise entitled "A Packet Essay on Kissing."

Governor Ritchie asserted that the "growing contempt for law" is attributable in a large measure to "this unholy zeal for more law."

FORD ORDERS ATTACK UPON JEWS TO END

Arthur Brisbane Quotes Automobile Manufacturer in Copyright Story

EDITOR SURPRISED AT DEVELOPMENTS

Settlement of Sapiro-Ford Libel Suit Out of Court Is Indicated, W. H. Gallagher Says

DETROIT, July 8 (AP)—W. J. Cameron, editor of the Dearborn Independent, reiterated this morning his statement of last night that he had received no orders to discontinue publication of articles hostile to the Jewish people, as reported in a New York dispatch quoting Henry Ford as having issued such instructions.

NEW YORK, July 8, (AP)—Through Arthur Brisbane a statement was made public today quoting Henry Ford as saying he had ordered his Dearborn Independent "to discontinue permanently all articles hostile to [illegible]ewish people." The statement expresses "great regret" over any injury the articles may have caused.

Mr. Brisbane's article, which was copyrighted by the New York American, and set by that paper to other newspapers, is based on a signed statement, says Mr. Brisbane, the original of which is in possession of Louis Marshall, lawyer. Mr. Marshall, at Sarnac Lake, said the original was in his office safe and a photo-static reproduction would be available to anyone desiring it.

At Ford's Request

The announcement was made at Mr. Ford's request, said Mr. Brisbane, who quotes Mr. Ford as saying: "This statement is made on my own initiative and wholly in the interest of right and justice and in accordance with what I regard as my solemn duty as a man and as a citizen."

Some of the articles already reprinted in pamphlet form under the title of "The International Jew," will be withdrawn from circulation, says Mr. Brisbane, who quotes Mr. Ford as saying that the Dearborn Independent in the future will be conducted under such auspices that articles reflecting upon the Jews will never again appear in its columns.

William J. Cameron, editor of the Dearborn Independent and a witness in the $1,000,000 libel suit brought by Aaron Sapiro, Chicago attorney, against the motor manufacturer, at Detroit, expressed surprise at the statement. "It is all news to me," Mr. Cameron said, "and I cannot believe it is true." He added he did not believe the statement was a preliminary move toward settlement of Sapiro's suit, based on articles appearing in the Dearborn Independent.

Ford Refused Offer

Mr. Brisbane asserts that on behalf of William Randolph Hearst, publisher of the American, he offered Mr. Ford $1,000,000 for the Dearborn Independent.

"No, I won't sell it," he quotes Mr. Ford as replying, "but I'm going to make it a house organ and I am going to stop absolutely everything that could possibly cause complaint or hurt the feelings of anybody."

Mr. Ford's statement in part follows:

"In the multitude of my activities it has been impossible for me to devote personal attention to their management or to keep informed as to their contents. It has inevitably followed that the conduct and policies of these publications had to be delegated to men whom I placed in charge of them and upon whom I relied implicitly.

"Those who know me can bear witness that is is not my nature to inflict insult upon and to occasion pain to anybody, and that it has been my effort to free myself from prejudice. Because of that I frankly confess that I have been greatly shocked as a result of my study and examination of the files of the Dearborn Independent and of the pamphlets entitled 'The International Jew.'

"I deem it to be my duty as an honorable man to make amends for the wrong done to the Jews as fellow men and brothers, by asking their forgiveness for the harm I have unintentionally committed, by retracting so far as lies within my power the offensive charges laid at their door by these publications and by giving them the unqualified assurance that henceforth they may look to me for friendship and good will."

Cameron Surprised

Mr. Cameron said he could not believe Mr. Ford would make public such a statement without advising him inasmuch as he was in control of the publication of the paper and would be the first to be notified of such action.

"This is absolutely the first time I have heard of any such statement or intention on the part of Henry Ford," he said. "I most certainly will get in touch with Mr. Ford

(Continued on Page 5)

CLOSE CALL

Investigation was conducted by California authorities into a mysterious attempt to murder Ralph Ince, the movie director, at Fullerton. The hotel bed in which he slept was sprayed with chloroform which had nearly snuffed out his life when friends discovered and resuscitated him. Below is a picture of Ince's wife, the former Lucille Mendez, once "Broadway's favorite chorus girl."

SHEFFIELD QUITS AS AMBASSADOR

Resignation Forwarded to President Coolidge; No Comments Made

RAPID CITY, S. D., July 8 (AP)—James R. Sheffield today gave his resignation as ambassador to Mexico to President Coolidge.

The resignation is to take effect at the will of the president, who has not indicated his intentions. Mr. Sheffield, however, has indefinite plans for returning to his post and upon leaving here expects to go to Europe for six weeks.

The retirement of the Mexican ambassador comes at an admittedly critical time in the relations between this country and Mexico. The southern republic has recently instituted in "extreme" form the application of its oil law. It is understood here, and there is some concern over this development in the administration.

Makes no Comment

Giving no reason for his retirement, Mr. Sheffield likewise declined to comment on Mexican relations. It was said at the executive office here, however, that his resignation had been agreed upon a year ago when the ambassador returned to his post against his wishes but upon the request of the president.

State Poultrymen Close Convention

CORVALLIS, Ore., July 8 (AP)—Chicken thieves beware! The Oregon Poultrymen's association, which concluded its fifth annual convention here today, made provision for detective agency protection against chicken thieves.

A state egg-laying contest, at Oregon Agricultural college, will be conducted under the auspices of the association. All officers were reelected and at the convention adjourned complete harmony prevailed over the question of accredited hatcheries and related subjects.

The officers are: Edward Snow, Monroe, president; H. A. Putnam, Clackamas, vice president; H. E. Crosby, Corvallis, secretary treasurer; Mrs. W. H. Thompson, Canby, and Ambrose Brownell, Milwaukie, directors.

WOOL CLIP SOLD

KLAMATH FALLS, Ore., July 8, (AP)—One of the largest individual wool transactions ever negotiated in the Klamath basin, involving $175,000 and nearly 600,000 pounds of Klamath wool, has been consummated and the last of 21 cars of fleece will be shipped next Tuesday.

Lava Spreading Up Rim of Giant Hawaii Volcano

Natives at Hilo, Fearful of Kilauea's Wrath, Throw Offerings into Molten Stream.

HILO, Island of Hawaii, July 8, (AP)—The eight mile wide Halemaumau pit of Kilauea, the largest active volcano in the world, early today contained a lake of molten lava a hundred acres in extent into which three erupting cones played their flow of fiery liquid rock.

Despite the fact that Pele, the Hawaiian volcano goddess, is pledged according to native mythology, never to send a lava flow across Hilo, native residents of the town and its vicinity continued to cast their offerings to her. From their places of observation under the tree ferns back from the barren edge of the pit they advanced to hurl food and ohelo berries into the molten flow.

Heavy Lava Flow

Late last night the eruption was continuing without sign of abatement. Three "spatter cones," have been built up, two of which were most pronounced. The lava lake covered the entire floor of the crater and had submerged one of the fountains of fire from which the molten rock poured all day yesterday, the northernmost of the fiery fountains gave forth its cascade of lava with a continued roar.

Throughout the day terrific hot blasts carrying sulphur fumes drove spectators from the edge of the pit and dust clouds drifted toward the lava desert.

The coincidence of the absence of Dr. Thomas A. Jaggar, volcanologist, who has devoted most of his life to studying Kilauea's moods, when the eruption began just before dawn yesterday, was a topic of common comment. Dr. Jaggar, who is now in Alaska, where he went last April, was in New York in 1924 at the time of the eruption of that year, and at the last previous outbreak he was in the Orient.

Pele Likes Doctor?

Last year Dr. Jaggar had planned a trip from the islands when the Hoopulea flow started from Mauna Loa, companion volcano to Kilauea.

The native Hawaiians declare that Pele, the goddess, likes Dr. Jaggar and uses this means of keeping him at his observation house above the Halemaumau pit.

FACES USURY CHARGE

LOS ANGELES, July 8, (AP)—The city prosecutor announced today he would file a complaint charging usury against Cecil B. De Mille, millionaire motion picture producer and banker, for alleged participation in loan pools for refinancing the collapsed Julian Petroleum corporation.

Select Drouhin To Pilot Plane Across Atlantic

CROYDON AIR FIELD, LONDON, July 8, (AP)—Charles A. Levine will be ready to hop off from LeBourget field, Paris, within a fortnight on his second transatlantic flight, with Maurice Drouhin as pilot, he said today upon his arrival in the monoplane Columbia from Paris. He expected that the Columbia would be in perfect mechanical order by that time, he added.

Levine denied that there was a serious dispute between himself and Clarence Chamberlin, his pilot on the New York to Germany flight, as reported, but admitted that they were practically on a business basis.

Levine is returning to Paris this afternoon in the Columbia and will fly back to London with his wife tomorrow.

HEADS FOR ENGLAND

LE BOURGET, France, July 8, (AP)—Clarence D. Chamberlin, New York-to-Germany flyer, said goodbye to France today when he piloted the trans-Atlantic Bellanca monoplane Columbia, probably for the last time, into the air from the civil flying field here, headed for London.

Beside him sat Maurice Drouhin, French long distance flyer who if all goes well, will fly the Columbia over the Atlantic and back to Roosevelt field New York, some time in August.

Drouhin is 28 years old. Three times he has held the world's flight duration record. He lost his latest record to Chamberlin and Bert Acosta.

Ban Johnson Quits As Big League Head

NEW YORK, July 8, (AP)—Ban Johnson tendered his resignation as president of the American League today, effective on or before Nov. 1, 1927. It was accepted with regret by the club owners in special session.

Continued ill health was conceded to be the chief factor in the approaching retirement of the league executive, although he said today shortly before announcing his resignation that he felt better than at any time in recent years and felt able to carry on.

LEVENS GETS AXE; JUDGE DUBY QUITS

Politics Held Responsible for Retirement of Two Baker Officials

PATTERSON PICKS NEW PROHI CHIEF

George Alexander, Hillsboro, Governor's Choice —Successor to Duby Is Yet Unnamed.

ADMINISTRATION CHANGES

Governor I. L. Patterson removes William S. Levens and appoints George Alexander as state prohibition commissioner.

Judge William Duby resigns as chairman of state highway commission.

SALEM, Ore., July 8, (AP)—The removal of William S. Levens, state prohibition commissioner, and the appointment of George Alexander, of Hillsboro, as his successor were announced today at the office of Governor Patterson. A formal resignation it is understood will be received from Levens, but this will be at the request of the governor. The change is effective July 15.

Levens has invited Alexander to come to Salem prior to that date acquaint himself with the work of the department with the assistance of Levens. The change is admittedly political, a democratic appointee of former Governor Pierce simply being asked to step out and give way to a republican successor. Levens was appointed early in 1925 after an investigation of the prohibition department by a specially appointed committee of the legislature. He is credited with having combed out the snarls in the department and has conducted the office in cooperation with the sheriffs and district attorneys of the state. He moved the administrative offices of the department from Portland an Salem. Levens' home is at Baker, and it is understood he will return there.

Mr. Alexander was formerly sheriff of Washington county and is now a deputy sheriff. He is said to have a good record as a law enforcement official. A general change in the personnel of the department is expected.

JUDGE DUBY RESIGNS

BAKER, Ore., July 8, (AP)—Judge William Duby has forwarded his resignation as a member of the Oregon state highway commission to Governor I. L. Patterson. The resignation is expected to become effective as soon as his successor is named.

Mr. Duby states that the governor has not asked for his retirement and that he has expressed no desire for a change in the personnel of the commission, but that he is quitting to clear up a political situation which is embarrassing both to him and to Governor Patterson.

ROCKEFELLER IS 88 YEARS OF AGE TODAY

NEW YORK, July 8, (AP)—John D. Rockefeller, reputedly still the ruler of the destinies of the Standard Oil companies and a central figure in one of Wall street's greatest struggles of the last twelve months, was 88 years old today.

In extraordinary good health, the man long known as "the richest man in the world," decided to observe his birthday on his estate at Pocantico Hills, N. Y., and from his usual daily program with only slight deviation.
