The MODERN WAY for the MODERN DAY

"Good-bye kitchen—see you at six o'clock"

IN the Westinghouse Automatic Electric Range, women have found all the advantages of electric cooking under automatic control, and a range that has many superiorities of construction as well.

You may put dinner in the oven at ten in the morning, setting the clock to start it cooking at three. You are free for the day and return at six to find dinner ready to serve, piping hot, thoroughly cooked, and full of the flavor that only the best storage method of cooking can give it.

This freedom from the kitchen is only one of the many advantages of electric cooking. The time will come when you will cook with electricity—why not now.

Special terms this month which you cannot afford to refuse—Act today.
