

WHOLESALE EGGS FAIL TO KEEP UP

Butter Market Generally Steady—Supply of Cherries Limited

PORTLAND, Ore., July 22 (AP)—Wholesale eggs failed to hold their additional week increase of yesterday and today are about even with last week's prices for current receipts which remain at 25¢. First 25¢ and medium 23¢. The decline was affected largely through a local need to buy heavy surplus supplies from the country.

The butter market is generally steady as indicated by no change in sales prices except for a half cent reduction of price from 27¢ to 26¢.

Cherry supplies are limited and good quality cherries ranging from 10 to 25¢ per pound and Royal Amber B. Much of the stock is inferior and with the loss.

Thompson's butter prices were being offered for \$2.50 to \$3.00 per bag.

Country dressed meats and poultry opened steady this morning.

Lumber Industry Increases Sales

NEW YORK, July 22 (AP)—Reporting from the character of the mid summer cutback or suspension of activity, the lumber industry during the week ended July 16, increased its sales about 20 per cent over the week before, says the National Lumber Manufacturers' association. Shipments increased in about the same proportion, and production at an even greater rate. The resumption of activity was shared by both hard-wood and softwood operations. Compared with a year ago, the softwood lumber industry now presents the exceptional occurrence of a falling off in sales during the year's figures, but the hardwood industry continues to lag behind. Softwood lumber for the week ending July 16, totaled 218,000 cubic feet and was valued at \$2,566,000, or an increase of 52,165 the previous week.

Wheat Closes Firm And Higher Today

CHICAGO, July 22 (AP)—Opening 1/2 to 3/4 higher, Chicago wheat afterward showed some additional advance. Corn and oats displayed firmness too, corn starting unchanged to be advance, and subsequently scoring gains all around. Provisions were easy. Wheat closed firm, 1/2 to 3/4 higher; corn 1/2 to 1 1/2 up, oats unchanged to 1/4 advance and provisions 1/2 to 2/3 off.

WOOL REPORT

BOSTON, July 22 (AP)—The Commercial Bulletin tomorrow will say: "There is a fairly good business being done in wool although no unusual transactions are reported. Prices are firm and still against the buyer, with a few descriptions slightly easier. Operations in the west have become much less active."

"The goods markets are very firm and buoyant. London closed with prices averaging close to 2 percent above the close in May. "Wool is in a somewhat better position, with prices firm." The Commercial Bulletin will publish the following quotations tomorrow:

Sorted basis—Oregon and P. 31, staple, \$1.05-1.10; fine and P. M. clearing, 30-35¢; valley, No. 1, 30-35¢. Mottled—Original long average 12 months, Oregon, 52-55¢.

Bullish Trend Is Continuing In Stock Exchange

NEW YORK, July 22 (AP)—The stock market continued to push upward today despite reported selling attacks, but the advance was by no means uniform. A reported loss for the better in the lumber trade, following closely reports of improvement in the steel and rubber industries, strengthened hopes of good business this fall.

"Bear" traders continued to fret out weak spots. Houston Oil broke away 10 points to 142, but quickly snapped back to about 142. Such recent gains as in Baldwin, General Electric, American Radiator and Union Carbide, also had ground.

Gasoline traders were led up over 4 points to 55¢ on optimistic reports that Henry Ford was negotiating for rights to manufacture automobiles on the new Ford models. American Tobacco common and the R stock and Citicorp today also touched new record highs.

The closing was irregular. The market had a bad sliding 30-40 in the afternoon when it high volatility and down to 11 1/2, at times more than 6 points, and several others dropped 2 to 4, but recovery set in during the final hour. Total sales approximately 1,500,000 shares.

Farm Crops Require Varying Labor Hours

A government study of crop labor reveals that the corn belt, where large machines are used on level fields, can produce a bushel of corn with about one-half hour of labor. Certain southern states require 2 1/2 hours. Tobacco usually requires more labor per acre than any other major crop in the United States. An acre of Burley, yielding from 800 to 1,000 pounds, requires from 250 to 400 hours of labor from planting to marketing. Eastern cotton averages from 100 to 125 hours of labor per acre, whereas 25 to 40 hours suffice in Western supply; unchanged; few light Texas.

Many fruits can be grown in the Oregon home garden that under circumstances are suitable for commercial planting. See L. E. Schuster of the station. It is not necessary that home-grown fruit for home use be of the highest quality if appearance and flavor are satisfactory. It is more necessary, though, to plant fruit unsuited to the region.

Everything is on the double-quick

What used to be a long ride in father's buggy is now just a dash for brother's roadster.

Where dancers used to glide through the sedate steps of the polka they now shake the floor with the joint-dislocating Charleston.

And compare one of James Fenimore Cooper's scenic descriptions with a chapter from Scott Fitzgerald's latest novel.

This is an age of speed. Speed—and more speed. "I just can't find time" is universally accepted as an adequate explanation of why one doesn't do this or doesn't do that.
