## Rails, Motors Go Higher in Stock Exchange Today

NEW YORK, July 29 (AP)—Constructive forces were again at work in today's stock market, with major speculative operations for the advance shifting from the industrials to the rails. Profit-takers in some of the recent strong spots were well absorbed, and new leaders brought forward in an effort to maintain bullish enthusiasm.

Heavy buying of Pennsylvania, which moved up more than a point to 58, the highest level since 1919, featured the railroad group. Erie common also moved into new high ground, and gains of a point or two were registered by nearly a score of others, including New York Central, Baltimore and Ohio, Chesapeake and Ohio, Rock Island, Delaware and Hudson and several others.

Hudson assumed the leadership of the motor group by moving up more than three points to a new 1927 high around 38. General Motors also was heavily bought around its recent high levels, but the other motors failed to make much headway. U. S. Steel common and Inland were under slight pressure.

Trapped "shorts" in Manhattan Electrical Supply received another jolt when the stock soared more than 7 points to a new peak at 115. International Harvester extended its gain to more than 5 points and Timken Roller Bearing and Green (Canada) each moved up about 2 points to new high levels. Radio Corporation was weak.

The closing was firm. Total sales approximated 1,000,000 shares.

A Customer Whom We Wish to Thank  
A store grows only as it recognizes and meets the changing needs of the community it serves. A glance at the back files of any newspaper will show you how "changing" these are. Who now asks for "side" or "back" combs, "rain," "children's copper tipped shoes" or even a "lace petticoat"?

That is the reason we are especially grateful to the customer who tells us when she does not find what she wants in our store. By enabling us to keep pace with the magic strides of consumer development, she is helping us, not only to serve her better in the future, but the whole community as well.

We are pleased at the opportunity of expressing our appreciation of this service.
