THREE DEAD DUE TO AUTO WRECKS

Racing Driver of Seattle Killed in Portland in Elks Race Program
PORTLAND, Ore., Aug. 15 (AP)—Hurling automobiles spelled death for three men over Sunday—one on the race track at the 12-mile corners, the other two on the Hillsboro highway.
The dead: Lloyd Krohn, 25, auto racing driver of Seattle.
Archie L. Morris, 25, Portland.
Peter Currie, 26, Portland.
Krohn, driver in the class B race of the Elks' two-day program of races, was killed Saturday when his car climbed the steeply banked stretch fore through the guard railing, and having turned turtle on route, dropped to the ground 10 feet below.
Morris and Currie, en route, evidently, to the beach, were killed, probably instantly early yesterday morning when their car, driven by Morris, leaped from the highway 200 feet east of Rock creek bridge, two miles east of Hillsboro, and came to a stop against the trestle of the Southern Pacific line at the bottom.

Lita Likely To Get A Million Newspaper Says

SAN FRANCISCO, Aug. 15 (AP)—The Examiner says Chetla Chaplin and his attorneys virtually agreed today to accept a property settlement offer submitted by the film comedian's estranged wife, Lita Grey Chaplin, and that the amount involved is "said to be somewhat less than \$1,000,000."
The paper says the settlement is expected to alleviate the bitterness between Chaplin and his wife to such extent that the divorce proceedings, scheduled for a week from tomorrow in Los Angeles, will be a mere routine, adding that Chaplin probably will agree to let his two sons stay in their mother's custody, providing generously for their support, in addition to the expected property settlement.
After a conference here with his other attorneys, Chaplin, who arrived here early today from New York, went by motor to Delmonico with Nathan Burkan, of New York, and probably will go to Los Angeles for the divorce trial.

Big Tooth

The mastodon that roamed America some 50,000 years ago was a giant animal and needed big teeth to eat with. They had 'em, too—as witness this mastodon's tooth, displayed by Miss Grace Porter of Ludlow, Ky. The tooth, in nearly perfect condition, was found in a gravel pit near Cleveo, O.

Congressmen To Inspect Basin Visit Spokane

SPOKANE, Wash., Aug. 15 (AP)—Eighteen members of the national house of representatives, nearly all of them members of the committee on reclamation and irrigation, began their inspection of the Columbia basin irrigation project today with a trip to Sand Point, Idaho, to board a boat for a cruise on Lake 1 and Odeille.
They gathered here yesterday and spent the day informally. Some of them are accompanied by members of their families. After inspecting the proposed source of the water supply for the project today, the party will return here tonight for a banquet in the guests of the Spokane chamber of commerce.
On Tuesday, Wednesday and Thursday, the committeemen will leave Spokane for visits to various parts of the project or to proposed dam or reservoir sites. They traveled aboard a special train provided by the Columbia basin irrigation commission, under whose auspices the investigation is being conducted.

KING GEORGE'S YACHT SECOND IN TROPHY RACE

PLYMOUTH, Eng. (AP)—King George's yacht, the Britannia, was beaten by four minutes in a special race for a trophy put up by King Haud during the Plymouth Regatta.
His Majesty completed with the Westward of Mr. E. T. R. Davis, the Shamrock of Sir Thomas Lipton, the Lulworth of Mr. Mortimer Singer and the White Heather of Lord Waring. The Westward won the Shamrock was third, being forty-five seconds behind the Britannia.
The five yachts had to cover a triangular 25-mile course twice.

PAYS TRIBUTE TO GARY

RAPID CITY, S. D., Aug. 15 (AP)—By upholding the best ideals of commerce and industry, E. H. Gary demonstrated that "success is attained in largest measure through adherence to the highest standards of American business." President Coolidge declared today in a telegram of sympathy to Mrs. Gary: "I want to express to you, I read, 'the sympathy and the sense of personal regret which I feel in the death of Judge Gary. He stood foremost among those who find in

Hoover Denies Rumors of Halt In Project Work

LOS ANGELES, Aug. 15 (AP)—News that the construction of a great engineering project contemplated by the federal government, including the development of the Colorado river and Mississippi flood control, would seriously disturb the national budget were dismissed here today by Herbert Hoover, secretary of commerce.
The secretary, who yesterday predicted action by the next week on completion of the proposed damming of the Colorado, food relief, power development and irrigation purposes, said there would be no necessity for abandoning radical reductions in taxes. Among other projects contemplated by the government are the inland waterway system, development of the Columbia river basin, the St. Lawrence international canal and the reclamation of the Great Lakes level.
On the other hand many stories could be related to illustrate the feeling between the head of the steel corporation and its employees. A characteristic one involves the strike of elevator operators in office buildings in New York several years ago. During the strike every man was at his post in the Empire building, which had been purchased by the United States Steel corporation shortly before the strike. Asked the reason for the men being at their posts, one of the operators replied: "As soon as the corporation

mentally successful in dealing with both problems from the standpoint of employer and employee was proved by the tribute that were paid to him by the leading men of the industrial world who made in the steel corporation, and those who worked in the ranks of its various companies.
One of the most pleasing tributes ever paid to Mr. Gary was at the annual meeting of the American Iron and Steel Institute at New York in October, 1919. The steel strike had been in progress several weeks and the steel men, nearly 1,000 of them, had gathered to hear what Mr. Gary had to say. The entrance into the gathering was the signal for a remarkable demonstration. These steel men, now men catching sight of the work of their industry, broke into a spontaneous salvo of cheers, which were continued several minutes.
