Mr. and Mrs. R. R. Roberts and three children, stopped in La Grande yesterday en route home to New Mexico from Western Oregon to visit relatives here. They have been at Marshfield for the past two months and are home on their way home. They visited at the home of Mr. and Mrs. J. C. French while here.

Passed Through City—
Mrs. L. A. Burton, of Portland, passed through here Tuesday night on her way to Baker to spend a few days with friends there. She will return to La Grande Saturday and will be the guest of Mrs. Fred Holmes and her daughter, Miss Nell Gilmert. She will be joined here by her mother, Mrs. Mae Woods. Both are former La Grande residents and have many friends here.

Goes to Wallowa—
Miss Kathleen McLaren left yesterday afternoon for Wallowa where she will visit with her mother and with friends. Miss McLaren accompanied Mrs. George Curvey and her sister, Mrs. Albert Curvey, home from Toledo where she has been with her sister since the end of the school term at the Lewiston normal which she attended last year. Miss McLaren has obtained a position near Toi-in this county.

THE PRESIDENT "CHOOSES" TO GALLOP IN THE HILLS

President Coolidge, with his ten-gallon hat and buckskin gloves, is shown here on his favorite mount, Mableton, just before starting on a gallop over the Black Hills of South Dakota. The president rode to Mt. Rushmore the other day for the ceremony marking the beginning of work on the Jefferson-Lincoln-Roosevelt Memorial, which is to be executed out of native rock by Gutzon Borglum. This excellent NEA photo is one of the few ever taken of President Coolidge on horseback.

SUN EXPLOSION WOULD KILL ALL

Professor Explains Action That Would Follow If This Occurred

CHICAGO, Aug. 15 (AP)—An explosion of the sun, similar to that which occurred recently on the star Nova Aquila of 1927, as it is designated, would bring death and destruction to the earth, Professor H. H. Frost, of Yerkes observatory, said today.

The expansion or explosion of the star, similar in type to the sun, was announced yesterday by Dr. Max Wolff, of Heidelberg university, and confirmed by photographs taken at Harvard university.

"These explosions," professor Frost said, "are believed to be due to sudden trigger-like releases of inter-atomic energy, due very likely to the unbelievable heat of the sun's interior. Temperatures inside the stars vary from 500,000,000 to 100,000,000 degrees, Fahrenheit."

Illustrating energy contained in atoms and what could be accomplished if it could be released and utilized, the professor said a glass of water contained enough energy to send the Manhattan across the Atlantic ocean and back. Or it would send all the autos in the country from Chicago to New York and return.

Would Give Warning
"This energy, suddenly released drives from the stars the scorching gaseous shells which reach the

planets in the wake of shriveling heat. The stars are not destroyed by the expansion. The nucleus remains and in time acquires another gaseous shell," the professor said.

"The heat from an explosion of the sun would reach the earth in about eight minutes and would be followed by the deadly gases in 123 hours. Should the expansion be 1000 times the sun's present size, the heat would make life on the earth impossible anywhere but at the poles, and not long."

Excellent values in quality merchandise displayed in these collar-attached shirts—fancy percales and madras. Sizes 14½ to 17.

There should be expansion be 20,000 times its size, as was Nova Aquila of 1918, destruction of life would be but a matter of a few minutes about the center of the earth which would be shriveled up.

A man may think what he likes. The trouble comes when he tries to make others like his thinking.

When a man is too proud to beg and too honest to steal, it's time for him to go to work.

Campfire Girls To Take Rescue Tests

All campfire girls of the city desiring to take life-saving tests in swimming are asked to be at Cove swimming pool Tuesday afternoon at three o'clock, where Professor Leaf will be to give the tests. Tests in releasing, undressing in the water, and surface diving for objects will be given. Each girl is asked to bring shoes, stockings and three articles of clothing for the second test. The tests will begin at three o'clock and will continue until five.

At that time arrangement will also be made for the remainder of the tests. Miss Myrtle Hoyt, committee and guardian who is in charge announced. Transportation to the Cove pool will not be furnished.

WOOLAROC, ALOHA REACH HONOLULU

(Continued from Page 1)

(News) said the pilot to the governor as they shook hands.

Glorious Welcome
Girls came and they left, strings of Hawaiian flowers, about the necks of the two flyers as the crowd cheered madly and a band played popular airs.

"The first thought of trouble was of his mother in Los Angeles."

"I want to send a radio," he said, and dictated: "Dear mother—reached Honolulu in 24 hours and feel like a million."

The flyers were escorted to the Royal Hawaiian hotel and told that they could have anything that they wanted.

"Just give me a shave, then bring on a bathing suit and after that we will go places!" exclaimed Goebel.

Neither Hungry
Goebel and Davis then had shaves, while they told of their winning race across the Pacific. Neither man was really hungry, they said.

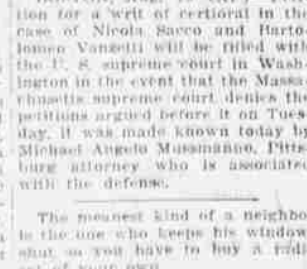

Their trip was uneventful, Davis protested. Only once did he fear that they were going to fall in the ocean.

"Once during the night," said Davis, "I thought we were having minor trouble. I crawled up in the fall of the plane to oil some working parts. It sounded like the pistons were knocking. I dragged out the water bottle and the emergency rations and began looking for a soft place to land. Then the launch blew out and I realized that my fears were unfounded."

Sacco and Vanzetti Writ To Be Filed

BOSTON, Aug. 15 (AP)—Petition for a writ of certiorari in the case of Nicola Sacco and Bartolomeo Vanzetti will be filed with the U. S. supreme court in Washington in the event that the Massachusetts supreme court denies the petitions argued before it on Tuesday. It was made known today by Michael Angelo Musmanno, Pittsburg attorney who is associated with the defense.

No Gadabout

Mrs. Polly Curlin has spent the last 55 years in her home at Denmark, Tenn., leaving the house only to attend church or to call on relatives. She has never ridden on a train or in an automobile, and has never visited the county seat, 15 miles away. "I never cared about being a gadabout," she says.

KELLEY ESCAPES NOOSE, AT LEAST TILL LATER DAY

(Continued from Page 1)

Previous to his departure on the state highway tour Governor Patterson had stated emphatically that he had no intention of interfering with the contemplated such saying: "After making a careful investigation of this case from the voracious impetus to the final stand of the defendants in the United States supreme court, I have reached the conclusion that I am not justified in extending executive clemency."

Since the condemned men received their final sentence, four weeks ago, the executive offices have been flooded with pleas for clemency based principally on sentimental standpoints.

UP TO COURTS

GRANTS PASS, Ore., Aug. 15 (AP)—Action of Governor Patterson in the Ellsworth Kelley case depends upon the courts and the attorney general, the governor declared here today. When Governor Patterson left station last night, the matter was left in the hands of the officers of the attorney general. The governor will take such action as may be recommended. He is in close touch with his office today, while attending the annual Josephine county grain picnic. If recommended by the attorney general, a writ of habeas corpus will be issued, but such recommendation is forthcoming, the governor will consider the matter closed, he indicated.

FIGHTING FOR WILGOS

SALLEM, Ore., Aug. 15 (AP)—In an effort to save James Wilgos from the gallows his attorneys will today file with Judge McMahon of the circuit court a petition for stay of the death sentence until Wilgos' sanity is determined. If the petition is granted the examination for sanity will be conducted either by a sanity commission or by trial as the court may determine.

TOURIST FINDS DR. JOHNSON

LONDON (AP)—They are telling the story these days about an American tourist who asked a Fleet street hobbie where he could find a doctor.

"Turn up Hind-court into Gough-square," said the hobbie. "There is a doctor that lives there on the left-hand side. I think his name is Johnson. I noticed the nameplate" one day as I walked by."

The tourist followed instructions and found the house indicated. On the wall was a nameplate which read:

"Dr. Samuel Johnson."

In smaller letters were the words: "author, lived here. Born 1709, died 1784."
