

DAIRY EXCHANGE TAKES FIRMNESS

Prices Unchanged But Storage Holdings in Butter, Eggs Lower

PORTLAND, Ore., Aug. 22 (AP)—Although dairy exchange quotations for butter and eggs were not advanced for today the market tone for both is very firm with local receipts for top grades well below demand. Storage holdings were decreased yesterday by 173 cases of eggs and 5699 pounds of butter.

Private and cooperative egg dealers are still in disagreement over grading and prices for white extra. Prices ranging from 1 to 2 cents are quoted to retailers.

A move to revise specifications for extras to a basis more agreeable to all jobbers is being handled through a special committee which expected to report recommendations today.

Fresh fruits and vegetables moved in a normal manner in wholesale trading this morning. Prices generally unchanged and supplies were continued plentiful in most responsible lines.

Peaches More Scarce—Elberta peaches are becoming a little scarce and are expected to be sold soon. Their place in the trade is being taken by new peaches of the Lovel variety to sell a little cheaper than the Elberta at from 20c to 40c per box.

There is little movement in the poultry trade with little local digging reported.

First new crop local onions are expected to start into the local market in earnest the first of next week for which advance quotations estimate a range of from \$1.00 to \$1.20 to the grower.

Country dressed meats were firm at unchanged prices this morning with supplies of top stuff largely sufficient for the trade.

Poultry demand is steady at firm prices. Heavies still sell to the trade at from 22 to 23c.
