AN ARMY

is no stronger than its lines of communication. Let one part of it be cut off from its supply and you know what happens.

No organ of your body is stronger than the nerve supply it receives from the brain. If this is partially cut off by pressure on certain nerves at the point where they leave the spine, the part supplied by the pinched nerve is bound to be diseased.

Chiropractic Adjustments

scientifically release the pressure, complete communications are established and the battle for health is won.

How Much Do You Spend on Clothes?

The Department of Labor has just figured out that Mrs. Average Woman spends \$63.55 a year on her wardrobe, while Mr. Average Man pays \$71.28 for his clothes every twelve months.

Whether these figures seem low or high to you, our Store feels a deep obligation to help Mr. and Mrs. Average Man and Woman get value for every cent of those dollars. Our 85-cent buying resources mean good quality at rock bottom prices. We sell for cash so you won't have to pay for the other fellow's bad debts.

It isn't how much you spend that counts after all. It's what you get for your money.

Goodyear?

We might sell another line of tires. And we believe they might be good ones. But then we might be asked many times, "Do you think this tire is as good as the Goodyear?"

So we figured if our customers would make Goodyear their standard of value—why try to sell them any other kind.

And for that reason we have sold Goodyears for over 10 years—and believe we are selling the greatest tire value in the world.
