

SAFEGUARD YOUR PROSPERITY

Your present prosperity is measured by what you earn—and by what you have saved. Your future prosperity, as your earning power declines, will be measured more and more by what you have accumulated.

You can make sure of future progress by safeguarding your present prosperity. Take care of what you have. Add to it. Let it earn more money for you. In no other way can you make a greater contribution to community progress and development.

La Grande is enjoying notable development; the two valleys are enjoying a bountiful harvest. Every year cannot average as high. The prosperity of one may have to tide over another.

The help and personal interest of this bank can be an important factor in safeguarding your financial success. Its growth, in step with that of the community, has been based on that service—a courteous, cordial, helpful service that is highly valued by its customers.

A Strong, Progressive Institution

Back of this bank and its reputation for fine banking service are some of the best known men in this community, men who have won confidence by accomplishment. They compose the Board of Directors:

AUG. J. STANGE, Vice-President Mt. Emily Lumber Co.
 T. J. SCROGGIN, Vice-President United States National Bank.
 A. L. RICHARDSON, Physician and Surgeon.
 GEO. T. COCHRAN, Member firm of Cochran & Eberhard,
 Attorneys
