

Resources More Than Doubled

A new bank in La Grande, though long identified with the county when an Imbler institution, the Equitable Savings Bank has a record of growth during its ten months here that is in keeping with the progress of the city.

Resources have more than doubled in that time. Primarily a savings bank, under state supervision, we are also equipped to handle general commercial business.

A RAPIDLY GROWING SAVINGS DEPARTMENT—

An average of one new savings account every three days since the establishment of the institution is the record of the savings department. Our facilities are especially designed to accommodate the small depositor and we will be glad to have you open an account. An attractive "Money Barrel" bank is available to each new savings depositor—"start with a coin — end with a barrel of money."

Dream Castles Can Be Realized With Careful Investment

Dreams do come true — but only when you have combined consistent thrift with careful investment. Hundreds of people have discovered through our investment service that it is possible to invest money both safely and profitably.

You can profit by the growth and progress of this community with carefully selected real estate investments. Lots that are growing in value — property that is income producing — first mortgage loans on real estate — there are many specific investments that will appeal to a keen judge of values and profit returns. We will be glad to advise with you how your money can be put to a constantly better advantage.
