BEWARE THE COUGH OR COLD THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

I want you farmers to get in touch with me at the very quickest moment possible. We were entirely out of shingles Saturday evening but a big carload of intermediate sized shingles arrived today. If you need this ad tonight and buy your shingles tomorrow, you can have them for just 60c a bunch. These are not the poorest grade. Just the very wrinkled to shingle a long cow barn, or a short woodshed. You could even put them on a good house if you wanted to.

We have sent in a large order for spring shipment of Monarch Paint. It surely goes good.

We have a more carload of shingles coming of almost every kind and description. You better buy quick, the market on the coast has already gone up.
