The sophomore class recently elected Mr. Price as its advisor, the juniors elected Mr. Jones and the freshmen Mrs. Fletcher.

At a recent meeting of the student body the school colors were changed from orange and black to blue and gold. This was done to avoid confusion in the football and basketball games with other schools as orange and black is worn by other schools.

The football season was initiated with fun and frolic on Friday evening, Oct. 7. After the ceremonies were concluded the sophomore hosts served lunch of sandwiches, cider and cookies.

Cove high played their first football game on the home grounds Wednesday with Union high. This game was 13 to 5 in favor of Union. They had only a week's practice so were not as well trained as they will be in the future. Cove played at Imbler on Friday, Oct. 14, and went down to defeat with a score of 32 to 6.

Frank Foster, who coaches the Cove football team, witnessed the Whitman-Gonzaga game played on the Whitman grounds recently.

Mr. Jones and Grant Conley attended the football conference in La Grande Oct. 1. Those present at the conference were the principals and coaches of the different high schools of Union and adjoining counties. The purpose of the conference was to discuss the

changes in the football rules.

The domestic science class served a waffle luncheon to the faculty on Wednesday, Oct. 5. The number of waffles eaten proved how good they were.

The hot lunches served every day at the school are steadily growing in popularity.

Mrs. Besse Lay has begun her music work and is arranging the work so as to have as little conflict as possible with high school classes.

The high school shop boys are still in "the mood." They have mended locks and doors and tables in Miss Marten's room this past week.

Mac Rees was absent from school for a few days but is back again.

Mr. Price and family are moving from their home up the Canyon to Cove for the winter.

The high school chorus meets with its leader, Mr. Price, on Thursday evenings. Thirty-six boys and girls have joined to date and all are enthusiastic over the work.

Work on the negro minstrel to be put on by the high school will begin in the near future.

Oratory and debate material is being accumulated toward the future work in these subjects.

The first six weeks' exams are over and cards will be issued today.

"Hello, there, Claude Pratt. Have you got a good paint brush?"

"Yeah." "Now I want a good brush." "Well we got a good brush." "The old fellow out here at the farm is coming in after the brush and some of that good Monarch paint. Now, lookie here, Claude, I don't want any of that old cheap paint." "Well, I don't blame you. Nothing better than Monarch, is there?" This conversation took place about 3 minutes ago but that isn't the first Monarch that has gone out this morning. Our sale on Monarch last week amounted to better than \$500.

If you want some apple pickers, 6-foot tall with a flat board on top, braced up solid, they are 85c apiece. Phone and tell us how many you want. The carpenters out here are making a bunch of them now.

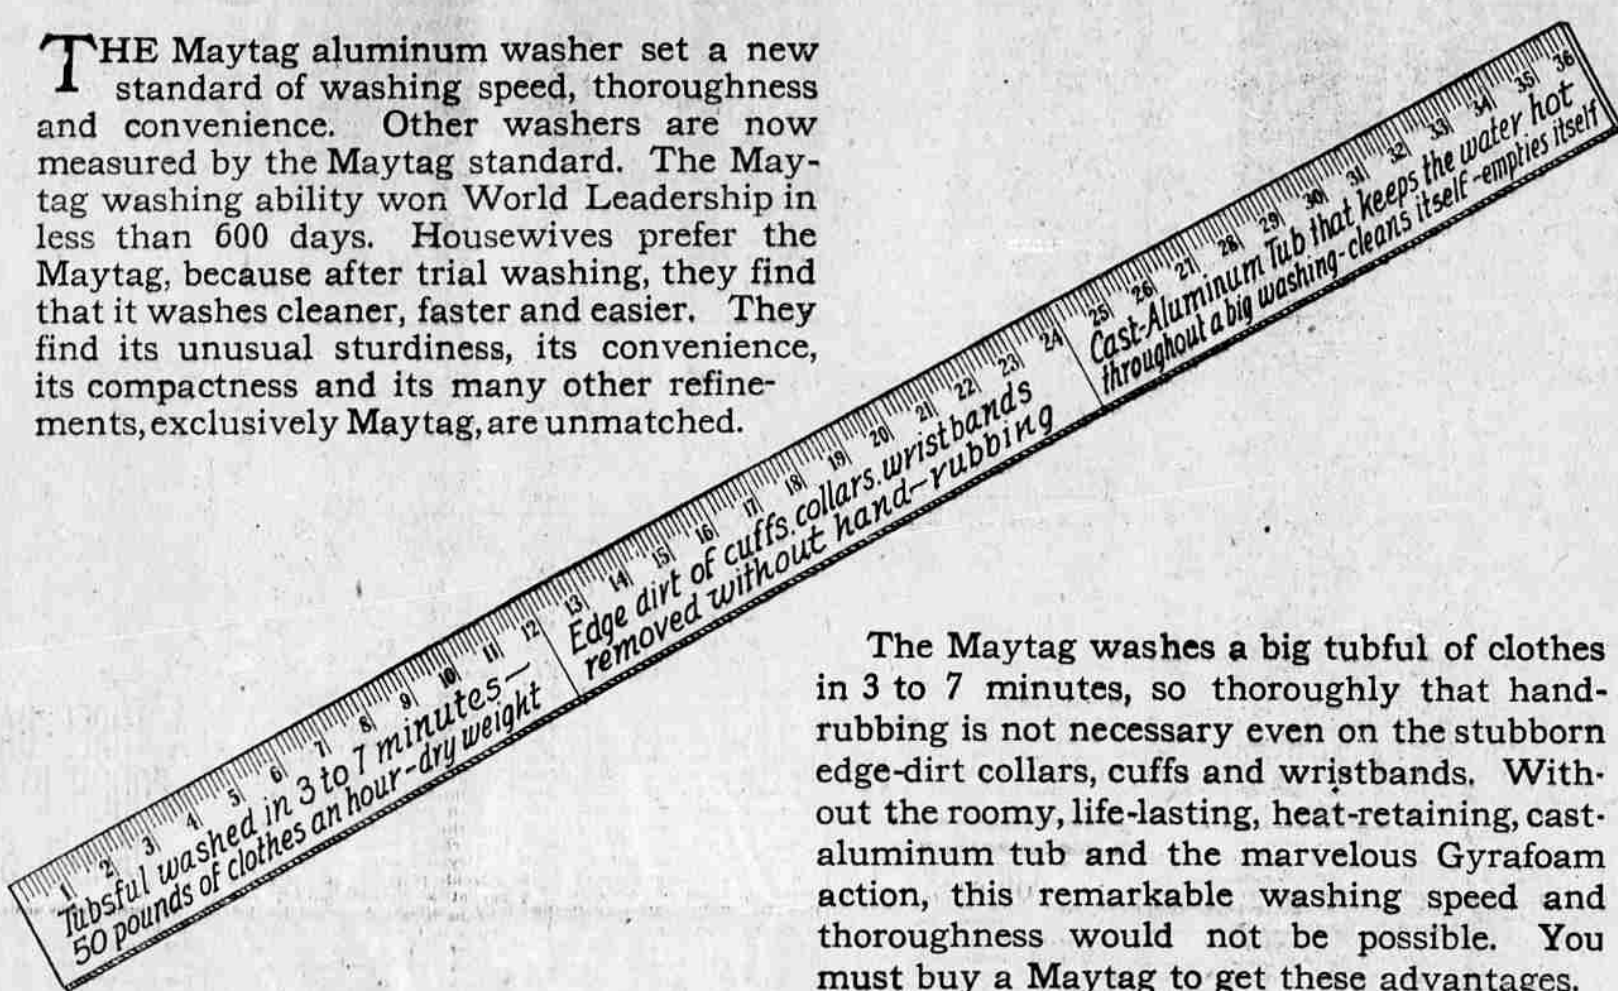

What do you think about it? A college man came along the other day who has made a thorough study of advertising, and when we asked him how he had our method of advertising, he said, "You have broken every ethical rule in advertising, but I see you are getting results, which is the main thing."

Last month was the biggest month we have ever had since we came to La Grande. We took in over \$21,000 in cash. The only way we can account for it is this: Just at the present time money is very tight and times are extremely hard, and people consequently want to save every penny that they possibly can and so during the hard times our trade is much better. Of course, if times were very prosperous we might have a hard time getting along because people throw their money away too much then, but if hard times will just keep up for several more years I might be able to buy me another police dog.

The Yardstick of Washing Machine Value is MAYTAG Performance

THE Maytag aluminum washer set a new standard of washing speed, thoroughness and convenience. Other washers are now measured by the Maytag standard. The Maytag washing ability won World Leadership in less than 600 days. Housewives prefer the Maytag, because after trial washing, they find that it washes cleaner, faster and easier. They find its unusual sturdiness, its convenience, its compactness and its many other refinements, exclusively Maytag, are unmatched.

The Maytag washes a big tubful of clothes in 3 to 7 minutes, so thoroughly that hand-rubbing is not necessary even on the stubborn edge-dirt collars, cuffs and wristbands. Without the roomy, life-lasting, heat-retaining, cast-aluminum tub and the marvelous Gyrafoam action, this remarkable washing speed and thoroughness would not be possible. You must buy a Maytag to get these advantages.
