Favor Sharkey To Win in Bout With T. Heeney

BOSTON, Jan. 11 (AP)—Boston boxing circles contain no doubts as to Jack Sharkey's physical condition even though the New York state athletic commission does desire to examine his once injured left hand before his bout with Tom Heeney next Friday night. Jimmy Maloney, South Boston heavyweight whose title aspirations were blasted by knockouts by both Sharkey and Heeney, today predicted Sharkey would win by a knockout. Dan Carroll, Maloney's manager, agreed and set the limit of the fight at "four or five rounds."

Tommy Kirby, the fast light heavyweight with whom Sharkey has done most of his stiffest sparring in the last two weeks, claimed the Boston heavyweight as a "true and mighty hard hitter," who is due to bewilder his New Zealand opponent by a changed style of fighting.

Bills ready for the House of Representatives so far number 1459. It seems there are a few things which haven't been prohibited.

HORNSBY TRADED TO BOSTON TEAM

Biggest Star of National League Surprised at the Announcement of Deal

NEW YORK, Jan. 11 (AP)—Eugene Hornsby, captain of the New York Giants and the biggest star in the national league, has gone in a lightning trade to the Boston Braves.

The deal came as a stunning surprise to baseball circles and was equally unexpected to Hornsby, who at his hotel in St. Louis, at first said: "I can not believe it."

In return for Hornsby, who is the National league's highest salaried player at a reported sum of \$75,000 a year, the Giants receive catcher Frankie Hogan and Jimmy Wicks, an outfielder, both virtually unknown. They are just ordinary players. No cash was involved.

A brief statement signed by President Charles A. Stoneham and Manager John J. McGraw said the trade was made "for the best interests of the club."

Hornsby made a brilliant showing in an article, manager of the Giants during the closing days of the 1927 race during McGraw's illness, driving the team into a commanding position for the pennant.

The only plausible explanation of the deal appeared to be a desire on the part of the Giants to bolster a weak member of the National league. The Braves have been battered around the mill of the circuits for the past few years, and the patronage dropped at an alarming rate in Boston.

After receiving a telegram from Judge Emil F. Fuchs, owner of the Braves, telling him of the deal, Hornsby said it did not make any difference to him whether he was with the Braves or any other club, however. Hornsby was picked over the "most interested" second baseman of the Giants' announcement and declared he didn't believe McGraw was responsible for that part of the statement.

Two Main Events On Boxing Card Here January 21

Arrangements have been completed for a boxing card to be held here Saturday night, Jan. 21, with two headline fights featured.

Both main events will be eight-round affairs, with Joe Haddock of Innisfail, Pa., promoter, meeting Sammie King Boyd, 149, of Seattle. The second main event will find Ed Allen, of La Grande, matched against Ray Hoffman, of Seattle.

A six-round semi-final will be fought by Wilbur Harrington, of Seattle, and Johnny Hayden, of Pocatello and Kid Abregon, of Seattle, will meet Earl Ford, of La Grande, in a four-round special. A four-round preliminary will open the card.

Young Hickman was a model Sunday school boy, according to dispatches, which probably will bring a remembrance of the over-whelming logic that all model Sunday school boys are bad at heart.

OUT OUR WAY

Home Radio Movies Due Within A Short Time, Inventor Predicts

WASHINGTON (AP)—Motion pictures in the home, received on moderately priced sets, will be available within a few months for radio listeners, C. Francis Jenkins declares.

Mr. Jenkins, a leading engineer in the development of "vision by radio" is experimenting on a device which he believes can be manufactured to sell as cheaply as the average receiving set.

"The refinement is a stubborn problem, but we are making progress and it looks as though within the next few months simple and rather inexpensive receiving instruments will be available whereby you will be able to receive in your home inaugural ceremonies, baseball games, big parades or even Atlantic City beach beauties," Mr. Jenkins said.

Mr. Jenkins, who has been working on the problem of radio vision for 15 years, is credited with the development of a device by which photographs are transmitted, the first demonstration being made between the naval experiment station at Anacostia, Md., and his own laboratory.

"With a telescope we can see to great distances, but only along straight lines, whereas with radio we can see along curved lines, through obstructions, over mountains, and eventually see shall see half way around the earth," Mr. Jenkins declared.

"Vision by radio is simply a more rapid transmission of objects which have been translated into electrical energy and at distant points changed back into a form similar to the original, whether it be a still picture or a picture in motion. The method by which we analyze the picture reminds me of a bacon cutter. The bacon is sliced up into strips by the rapidly revolving knife. Each of these little strips is made up of fat and lean, and the whole picture is made up of light and dark. Just as each strip of the picture is made up of light and dark strips, which are then converted into electrical currents of similar values, the whites of a line across my collar would give a strong signal, and the black is analyzed. At each of the hundreds of distant places this picture of my coat a weak signal. It is such linear fashion the whole picture is reassembled in lines, and the whole picture built up again in the same time and order that the picture at the transmitting station is being analyzed.

"This method is the one in use the world over, and whether we are transmitting photographs or pencil sketches, pen and ink maps or radio vision, the principle is the same. In the transmission of still pictures—photographs and the like—time is not a limiting factor and therefore still pictures are the

Anderson Defeats Dixon in Portland

PORTLAND, Ore., Jan. 11 (AP)—Joe Anderson, Covington, Ky., light heavyweight, outpointed Georgia Dixon, Portland in their 10-round main event here last night and was awarded the decision. Anderson's greater experience and superior boxing ability aided him very materially. Dixon's blows counted when he landed but he lacked aggressiveness, especially in the earlier rounds.

MILLION ENOUGH
PATERNON, N. J. — Nathan Barnhart, former mayor, believed no man should have more than \$1,000,000. Whenever his fortune exceeded that he gave the surplus to charity. His will leaves his \$1,000,000 estate to charity and poor relatives.

THEY'RE ALL THIN!
NEW YORK—Lady Hay-Drummond-May, British feminist is here to study a puzzle. She wished to learn why American women dominate. "Thin women have never made history," she remarked. "And yet I have heard all your American women are so slender."

LUCKY STRIKE CIGARETTES
"IT'S TOASTED"

The Cream of the Tobacco Crop

"The growth of LUCKY STRIKE Cigarettes is a wonderful thing but there is a reason. I know, because I buy the Tobacco for LUCKY STRIKE. I buy 'The Cream of the Crop,' that mellow, sweet smoking Tobacco that the Farmer justly describes as I have described it above. The quality of LUCKY STRIKE Cigarettes is telling. It is natural that the brand should show the tremendous growth that it is showing today."

John H. Heeney
Buyer of Tobacco at Louisville, Ky.

JAMES CRUZE
Director of Feature Photoplays, writes:

"In the direction of any of my big pictures, and especially during the filming of the Covered Wagon, the constant use of my voice demands that I keep it in first-class condition. As a cigarette smoker it was necessary that I find a cigarette which I could smoke without any chance of throat irritation or cough. After trying them all, I decided on Luckies. They are mild and mellow—which both protects the throat and gives real smoke enjoyment."

James Cruze

special OFFER

on the now famous
Westinghouse Warming Pads
positively ends February 10, 1928

The WESTINGHOUSE, 12x15 inches, \$8.50
terms of \$1.50 down, \$1.00 per mo. for 7 months.

The CIRCLE "W", 8½x14 inches, \$6.50
terms of \$1.50 down, \$1.00 per mo. for 5 months.

In ADDITION: We will allow you \$1.00 for your old pad or hot water bottle.

BE PREPARED

Now is the time to buy an electric warming pad and have it when you need its soothing, comforting warmth. Three heats at the touch of a switch—automatically controlled temperature—a soft flexible pad, light as a feather—ready to give you instant heat from any convenient outlet—these are the reasons for having a Westinghouse Warming Pad at your bedside. Once you have one, you'll never want to go back to the inconvenience of the old hot water bottle.
