

# Spring Hats Make Their Début

It's never too early to meet the coming of Spring with a smart new hat—and these adorable felts satisfy the needs of early spring weather and meet the full demands of Spring style.

Many, many shapes—the irregularity of them being the chief feature—snug fitting—deftly shaped crowns—brims most irregular and quite brief. Pretty pastel shades—and ribbon bands and pretty ornaments the only adornment. You'll like these newest models—**\$2.95 to \$6.00**

## Another Shipment of Smartest New Spring Dresses

This is another large shipment of new Spring frocks—and we think they are especially stunning in style and materials.

An excellent quality of georgette in the better frocks, many with smart under-slip of printed silk. New Spring colors—tans, reds, blues—in entrancing shades—**\$32.50 \$35.00 \$39.75**

In this same shipment are frocks of good quality crepes—chic styles with enough variety to suit every taste—and youthful colors you'll approve at once. These are priced at **\$13.75 to \$19.75**

Dependable Quality **HILL'S** Dependable Values

## NEW PLAYERS IN SEATTLE LINEUP

### Indians to Enter Coast Race With Middle-ton Handling Reins

SEATTLE, Wash., Feb. 7 (AP)—Under the leadership of a new pitcher—a man who will take his regular turn on the mound in search of victories—and with the addition of at least six other new faces, the Seattle baseball club of the Pacific coast league will enter the race for the 1928 diamond pennant.

Jimmy Middleton, who led the Portland Beavers into third place in the coast league battle of 1927, was obtained to handle the reins for the Indians on a trade with the Minneapolis club of the American association. Cliff Brady, Seattle's midjet second baseman, was the price paid for a leader.

William H. Kiepper, new head of the Seattle club, reported that Middleton won 12 and lost 7 games for Minneapolis last year and the year before won 21 and lost 11. While piloting the Beavers Middleton saved a number of contests with his great relief hitting.

### Seven New Players

Although seven new players have been obtained to date they no more than fill the seven gaping holes left in the Indian machine at the end of last season.

The remaining hurlers on the Indian staff are Kyle Graham, Jack Knight, Andrew House and Clyde Nance. In addition to Middleton, two unnamed hurlers have been obtained from Detroit in a trade for Paul Easterling, outfielder. One of the pitchers is supposed to be a good southpaw from a class AA minor league club. Another twirler who is expected to join the mound force of the Indians is Elwood "Speed" Martin, a free agent. Martin and his pitching ability were well known in the coast circuit, the veteran right hander having played with Sacramento.

In the catching department Seattle has Charles Borreani, and Jack Parker, a new comer from the Burlington club of the Mississippi valley league. He is reported to have an extra strong arm and to be a wood hitter.

Walter Schmidt, Seattle coach and veteran catcher, will probably take a few turns behind the plate.

### The Infield

Jim Hudgens is a cinch to handle first base. Chick Ellsworth will take care of the short patch, while Walter Kimmick, last season's third baseman and Jimmy Battle, a new-comer, will likely battle out for the honor. However, Kimmick is holding out for more money. Jack Sherlock, who served as a utility infielder last year, will succeed Brady at the keystone position.

Art Rubbe, also obtained from Detroit in the trade for Easterling, is expected to revert around to center field.

Bernie Neis, purchased from the Chicago White Sox, and Ike Wolf, will fight it out for the left field position while Fuzzy Hufft and Brick Eldred will probably divide the right field job.

Approximately 40 players, in-

## Record-Maker

Here's Arthur Newton, of South Africa, at the finish of his recent 100-mile jaunt from Somerset to Hyde Park, London. He made it in 14 hours 22 minutes and 19 seconds, beating the former record by more than 20 minutes.

## ANDERSON AND SHADE BATTLE THIS EVENING

LOS ANGELES, Feb. 7 (AP)—Dave Shade, bounding, crouching California middleweight and Joe Anderson, hard punching Kentucky 160-pounder, face each other here tonight with the chance of meeting Mickey Walker for the middleweight title as a possible added stake.

Shade's elusive, weaving style may puzzle the Kentuckian, but this if more than offset, sportscritics contend, by the fact that Dave has been on the shelf for some time, while Anderson has been fighting regularly.

As the two fighters tapered off their training work yesterday Mickey Walker, the man each hopes to meet in the ring, worked five fast rounds in preparation for his clash Feb. 20 at San Francisco with Cowboy Jack Wilde of Texas. George Godfrey, plant negro, also went through his paces to get in shape for Pauline Tacadun, the bounding bantam, whom he faces here Feb. 28.

## STEWART QUESTION UP

WASHINGTON, Feb. 7 (AP)—The question whether Robert W. Stewart, a key witness in the Senate Teapot Dome inquiry must appear at the bar of the senate to answer contempt charges was taken under advisement today by Justice Jennings Bailey in the district supreme court.

After hearing argument for more than two hours on the writ of habeas corpus obtained by the Chicago oil man last Saturday after his arrest by the senate, Judge Bailey gave counsel leave to file briefs.

Including about 20 rookies will report at the Indian training camp at Bakersfield, Cal., Feb. 27.

## Frankie Genaro Wins Flyweight Title in Toronto

TORONTO, Ont., Feb. 7 (AP)—The National Boxing association world flyweight crown rested today on the brow of Frankie Genaro, of New York.

Genaro won the title by scoring a decision victory over Frenchy Belanger in a 16-round bout here last night. Belanger captured the N. B. A. championship two months ago and defended it successfully recently when he won a decision over the man who dethroned him.

## Mehlhorn Clips Five From Par At Texas Club

WILLOW SPRINGS GOLF CLUB, San Antonio, Tex., Feb. 7 (AP)—Will Hill Mehlhorn, of Chicago, hit his stride in the first nine holes of today's play for the Texas open golf championship by clipping five strokes from par for a 21, establishing a new course record.

Mehlhorn made birdies at the third, fifth, sixth, eighth and ninth holes. The previous course record for the first nine was 22.

KOIN—Portland (319m-940kc) 6, pipe organ; 7:15, orchestra; 8, studio program; 10 to 11:30, dance band.

## HEALTH

### ONE EYELID MENDS THE OTHER

By J. Eastman Sheehan, M. D., New York City

Member Gargan Memorial. The lower eyelid is meant to rest gently against the eye. So doing, it protects the eye from the drying quality of the air, keeping it bathed in the tear liquid supplied for that very purpose by a special gland. It happens, however, that sometimes the lid is drawn away from this contact with the eye and instead of being held up against it is flattened down on the cheek.

This may be due to any one of a variety of causes. The lid muscle may have become flabby, and so unable to hold either itself or the other parts of the lid in the proper place. This is one of the results of growing old, and some of those who suffer from it appear to think the condition an incurable ailment of old age itself.

Or one may have been injured on the face, the healing of the wound being followed by the formation of a scar near the eyelid. Such scars exert a pull upon the skin nearest them, and if it happens to be the skin of the lower lid then the whole lid is drawn outward and downward from its true position. In some instances, as with a severe burn, the eyelid skin itself is destroyed.

In such instances the downward pull on the lid may be exaggerated to the point where a very obtrusively deformity has been produced. The membrane of the inner side of the lid, which was never meant to be exposed to the air, turns an unhealthy red. We have then the colloquial "red eye."

And meantime the eye suffers from lack of moisture and from

the action of the air, and may become seriously inflamed.

All such conditions are correctible.

What may not be well known is that if a new skin cover is needed for the lower lid when it is to be set back in place against the eye, that cover is best taken from the skin of one of the upper eyelids. The two lids look very much alike, but the upper is much more actively in use. It does practically all the work of opening and closing the eyes. For that reason its skin is constantly folding and stretching, with the very serious result that a large proportion of it can be taken away without in the least interfering with the capacity of the lid to discharge its function. A strip of a certain form, measuring half the width of the lid and three-quarters of its length, can be very comfortably spared, and can be moved down to cover the lower lid. The match is perfect in color and texture, and the further agreeable feature is that this upper eyelid skin, perhaps because it is the thinnest found anywhere on the body, heals easily and with so little scar that often it cannot be distinguished at all.

It is really quite wonderful what can be done with these bits of upper eyelid skin to get rid of slight disfigurements about the face.

### ROAD PROJECT HIT

SALEM, Ore., Feb. 7 (AP)—The famous Wilson River toll road project was again blocked in the house today when the state public service commission disclaimed jurisdiction over the enterprise and dismissed an application for a certificate of public convenience and necessity.

## Wrestling Bout Ends in Battle; Both Fined \$50

TULSA, Okla., Feb. 7 (AP)—A battle with fists terminated what was begun as a wrestling match here last night between Joe Malcewicz of Utica, N. Y., and Pat McGill of Omaha, Neb. More than a dozen policemen were required to separate the two men and a small group of fans who clambered into the ring. Referee John Hopkins gave the match to Malcewicz after McGill had knocked the Utica man out. The athletic commission overruled Hopkins and called it no contest, some of the members claiming Malcewicz started the roughhouse. Each wrestler was fined \$50.

# pipe smokers:

You certainly picked a "comer" this time!

YOU MEN who chose Granger—much obliged! Its growth so far beats anything in our experience.

Of course we thought we knew what pipe smokers wanted—and in making Granger we certainly gave them the "works." It's differently aged, made, cut, packed and priced—with a solid reason for each difference. And apparently smokers understood those reasons as well as we did.

At that, though, one pipe-load is all the reason a man needs!

# GRANGER ROUGH CUT
