HEALTH

PRINCIPAL CAUSES OF ILLNESS

By Hugh S. Cumming

Surgeon General U. S. Public Health Service

Member Gorgas Memorial Foundation

Public health in a given community depends upon the personal health of each individual. Recognized that, although a great deal is accomplished by means that deal with community conditions, yet the individual is the foundation upon which public health is built. In order to know what diseases must be guarded against it must first be known what diseases are present.

With this thought in mind a study was conducted by the Public Health Service, extending over more than two years, in a city regarded as a typical American small city in one of the eastern states. The information obtained through this study is of great interest to the general public as it shows clearly what diseases are most prevalent in the general population.

The principal object of this study was a record of illnesses that were experienced by a population group composed of persons of all ages and both sexes, and in no remarkable aspect unusual. The records of illnesses obtained were of illnesses as reported to experienced investigators. The reports were made by the household informant, usually the wife, either an experienced by herself or as she observed them in her family.

The rate of sickness from colds and bronchitis was the highest being annually 413.6 per 1,000 persons. Influenza and grippe came second with a rate of 143.2 per 1,000; diseases of the digestive system were 36.5 per 1,000; tonsillitis and sore throat 35.7; conjunctivitis and other purpurial diseases 46.2; diseases of the nervous system, including headaches, 44.1; accidents and other external causes, 25.5.

There are certain facts from this study that stand out with particular significance. First, the extraordinary high incidence of sickness shown in early childhood was a rather surprising result. Illness was far more frequent under ten years of age than at any other time of life. Second, the interesting suggestion was afforded that the average individual is more free from illness in the age period fifteen to twenty-four years. Thereafter sickness becomes more frequent as age advances and it may be added, upon the basis of other studies as well as those that sickness becomes more severe and more frequently fatal.

The further query suggests itself—At what age is the individual least able to withstand disease attack? He has been attacked? One way to measure this is to compare the attack, the greatest resistance to death in childhood being the age period five to fourteen. The lowest resistance is in infancy and early childhood, birth to four years, and in middle and old age. Ability to withstand disease thus varies markedly from resistance to illness at different ages, particularly in childhood, five to fourteen when the average individual suffers from illness frequently, but has a relatively small chance of dying, and in the older years, when not only does his susceptibility to illness increase, but also his chance of death. This is due partly, of course, to the nature of the illness occurring at these ages, and

OFFICE CAT

TRADE MARK REG.

Hair dressers say that bobbed hair is going out. Parents interviewed on the subject, say that it is not only going out, but refuses to come home at a reasonable time.

A SLIGHT BREAK

Highest: "I want you all to make yourselves at home. I'm at home and I wish you all were."

ANTIPATHIES

A girl I simply can't admire
Is Ethelberta Rose;
To hear her talk excites my ire,
For she talks through her nose.
Newark, Ohio, Advocate.

A man with whom I can't converse
Is Hiram Johnson Peeth,
For when he talks, I always find
He whistles through his teeth.

"Sensational things happen in America," says a critic. They do. A Chicago resident is reported to have died of old age.

"There goes the old rascal who swindled me out of \$40,000," "How did he do it?" "He used to let me marry his daughter."

The banker asked a man who was trying to borrow money, "How much have you in the way of immediate liquid asset?" "To which the customer cautiously replied, "About a case and a half."

Callor: "Won't you walk as far as the street car with me, Tommy?"
Age Seven: "I can't."
Callor: "Why not?"
Age seven: "Cause we're gonna have dinner as soon as you go."

Lawyer—So you have only been married six weeks, yet seek a divorce? Upon what grounds?
Clapper—Inhuman cruelty. We were secretly married, and he actually makes me keep the secret.

system were 36.5 per 1,000; tonsillitis and sore throat 35.7; conjunctivitis and other purpurial diseases 46.2; diseases of the nervous system, including headaches, 44.1; accidents and other external causes, 25.5.

AT THE THEATERS

"The Lovelorn" At Arcade This Evening

Thrills and romance vie with each other in "The Lovelorn," the Cosmopolitan production featuring Sally O'Neil, which is showing at the Arcade theater tonight for the last time.

"The Lovelorn" brings to life on the screen one of the most famous bits of newspaper columnizing in the world, the advice to lovers, conducted by Beatrice Fairfax, that appears in prominent news dailies throughout the world.

Sparkling with the modernism of the younger generation and tugging at the heartstrings with its tragedies of youth, it tells the story of two sisters, one an especially frivolous girl who scorns her flashy suitor, and the other a more demure character, who has long loved the boy in secret. He turns to the quiet one for consolation. As their wedding approaches the bride-to-be, believing that he still loves her sister, brings about an exciting and surprising climax that shows the young man up for what he really is and solves the love problems of both herself and her sister.

John P. McCarthy directed. The cast includes Molly O'Day, Larry Kent, James Murray, Charles DeLaney, George Cooper and Allan Forrest. It is a Metro-Goldwyn-Mayer release.

"Bachelor's Baby" Is Fine Screen Comedy

"If you must lie, make sure you can get away with it," serves as the theme of a delightful picture, "The Bachelor's Baby," which opens today at the Colonial theater.

This reviewer is free to confess that he has seen many comedies, but few which afforded him such genuine entertainment as did this delightful morsel served up by Helene Chadwick, Harry Myers and a capable cast.

The lie was almost an innocent little fib, told to a motorcycle cop in order to escape a sixty-day jail (played by Miss Chadwick) to know that the policeman would insist on learning for himself, whether she really was going home to a sick baby. But that was exactly what happened, and it became Billy Taylor's duty, as a gentleman, to find the baby in a hurry, a peculiar predicament for a bachelor to find himself in, to say the least. And he barely had met the girl, at that, Harry Myers, in the role of the perplexed bachelor, is superb.

Midway through the picture, the couple's baby—at a price—is a real screen find. His performance is natural, and his antics highly amusing. Others in the cast who are to be commended for the fidelity of their characterizations are Joseph Marcus and Edith Yorke. Pat Harmon, as the hard-boiled traffic cop with a weakness for children, is humorous.

Professional Directory

This directory is especially handy for the newcomer or for the out-of-town reader who may want the name and address of some professional man. It has been carefully prepared and will prove to be a ready aid to any reader in obtaining prompt professional service.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is a pleasant to take. Creomulsion is a new medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system in such ailments as loss of money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (Adv.)

Star To Show Will Rogers In "Texas Steer"

"A Texas Steer," the famous furee by Charles Hoyt, has at last reached the screen with Will Rogers in the role of the Texas cattlemen elected to Congress against his wishes.

The photoplay, a comedy special produced by Sam E. Tork for First National Pictures, as the outstanding laugh feature of the year, will be shown at the Star theater for three days beginning today.

While Rogers is in a natural role as a Congressman after having kidded Congress so many years, none of the cowboy-humorist's rare humor is missed even in the sub-titles. A star of the picture, he also wrote his own titles. The all-star supporting cast for Mr. Rogers is headed by Louise Fazenda as "Ma" Brander, his wife; Bossy, the daughter, is Ann Rork; Douglas Fairbanks, Jr., is the duke sweetheart, and George Marion, Sr., the original Fishback, merrily politician, as Minister to Dahomey. Others in featured roles are Lilyan Tashman, Mack Swain, Lucien Littlefield, William Cremona, Arthur Hoyt, Bud Jamison, Richard Wallace, who made "McFadden's Flat" a comedy triumph for First National, directed "A Texas Steer."

partly to the diminished ability to resist the diseases which manifest themselves in sickness.

It is believed that one of the most important lessons to be drawn from this study is that public health has as yet barely touched the task of preventing the conditions which manifest themselves in physical and mental impairments, in inefficiency and illness, and in postponable death. Plagues and pestilences have been diminished, also infant and child mortality from infectious and intestinal disorders, and healthful living is being established more and more firmly as a public ideal, but aside from these the prevalence of disease remains as an outstanding problem yet to be solved.

MOM'N' POP

HAVING NIPPED THE PLANNED ROBBERY OF POP GUNN BY LANDING THE FAKE BILL, GERRICK BEHIND POLICE STATION BARS THE REAL BILL GERRICK FINALLY MEETS POP HIS FATHER'S OLD COLLEGE CHUM.

YES SIR, MR. GUNN—I AM REALLY RILL GERRICK—NO KIDDING THIS TIME.

MIGHTY GLAD TO SHAKE YOUR HAND—NOT ONLY BECAUSE YOU'RE MY OLD CHUMS BOY, BUT ALSO BECAUSE YOU'VE SAVED ME FROM BEING ROBBED—WHAT HAS BECOME OF THE OTHER BILL GERRICK?

WE'VE GOT HIM BEHIND THE BARS, AND WE'VE ALSO GOT HIS ACCOMPLICE WHO IS A NOTED CROOK KNOWN AS 'THE HVENA'—WE HAVEN'T FOUND OUT THE IMPOSTOR'S REAL NAME YET—HE WON'T SAY A WORD.

WHY NOT PUT HIM IN THE SAME CELL WITH 'THE HVENA' AND LISTEN TO THEM TALK—THEY'LL HEAR WHAT 'THE HVENA' CALLS HIM.

ALL RIGHT, GENTLEMEN—I'VE GOT 'EM LOCKED UP TOGETHER—STEP THIS WAY AND WE'LL LISTEN IN.

GET ME INTO A SCRAP—LIKE THIS, WILL YOU?—NOL BLANKETY—NO *BLANK!?

Bill Has Lotsa Names
