Neighborhood Club To Have Guest Day

Tuesday will be guest day for the La Grande Neighborhood club and every member is urged to bring one or two guests to the meeting which will be held at the La Grande hotel. The day is also community service day and a program of interest to the community generally will be presented by Mrs. Charles Playle, chairman, and the members of the community service committee.

Charles A. Malbocuf, new secretary of the chamber of commerce, will speak on "Community Co-operation," and Mrs. E. E. Hurley will talk on "Dew Dryers." There will also be a musical program, including piano numbers by Mrs. R. G. McCall, a solo by Mrs. Ray Fuller and several selections by the Neighborhood club violin quartet, Mrs. Leo F. Miller, Mrs. Audmer Playle, Mrs. Roy Farnam and Mrs. Emmett Smith.

The program will close with an original skit, which promises to be unusually interesting and in which several children will take part.

Several women's clubs from outside La Grande have been invited to attend the meeting as the guests of the Neighborhood club and a record attendance is expected.

As an appropriate close to the afternoon Mrs. Charles A. Bingaman and the members of the social committee will serve refreshments.

MENUS

By Sister Mary

BREAKFAST — Stewed prunes, cereal, cream, crisp broiled bacon, creamed potatoes, cinnamon toast, milk, coffee.

LUNCHEON—Noodle soup, celery and apple salad, graham bread, chocolate cookies, milk, tea.

DINNER—Stuffed pork tenderloin, sweet potato apples, creamed onions, grapefruit salad, apple tapioca pudding, milk, coffee.

One cup sugar, 2 eggs, ½ cup melted butter, 2 squares bitter chocolate, ½ teaspoon soda, 1 tablespoon warm water, 2 cups flour, ½ teaspoon vanilla.

Cream sugar and butter and add chocolate melted over hot water. Save the white of one egg for frosting and beat one whole egg and remaining yolk until light. Add to first mixture and beat hard. Add soda dissolved in warm water. Mix and sift in flour. Add vanilla and mix thoroughly. Roll on a slightly floured molding board to one-fourth inch thickness. Cut with cookie cutter and bake 12 minutes in a hot oven. When cool, frost with a boiling frosting made with the white of egg.

These cookies keep extremely well and are better after the first day. The white frosting on the dark cooky makes a very attractive confection. Those who like a peppermint and chocolate combination might flavor the frosting with a drop or two of oil of peppermint.

THE GARDEN

SELECTING A GARDEN SITE

Soil conditions are the basis of good gardening and fortunately in the light of modern scientific research they are well under control. The city back yard gardener will confront more problems of unfavorable soil than his more fortunate brethren in the country. The first consideration is whether conditions that may be controlled in the city back yard will permit the successful cultivation of a garden.

If the sun does not shine on it for at least five hours on bright days, it is no use to try a vegetable garden. If it has been filled in with rock, broken brick or cinders it is useless to try a garden. As a general rule if weeds do not grow vigorously, it is not suited for vegetables. If weeds do grow abundantly you may know the soil is good for a garden.

The solution of unfavorable conditions is a vacant lot garden in a conveniently located neighborhood or the remedying of unfavorable conditions by excavating and removing the filling of bricks, stone or cinders and filling in with good soil. If the property is owned by the occupant, this will always be advisable.

If the lot is a small one with the big trees close by that will steal the moisture of the soil, look for another garden site and content yourself with a lawn and flowers. Maples and oaks are the worst kind of trees near which to plant vegetable crops because of their widespread and voracious root systems. If the ground is low and soggy, it is not fit for vegetable growing until it can be drained and lightened.

The ideal garden spot is seldom available on the average small city lot but it is often possible to select a site that has a number of the good points necessary for a garden. When there is any choice, the land should be level or with a gentle slope to the south. Drainage should be good so that water will not stand after rains. The ideal soil is a dark sandy loam with a moisture retentive subsoil. The soil should be deep and break up easily.
