phil. This property comprises an extensive park, various buildings and remarkable works of art.

May Grant Indemnity
(2) Italy further grants to the Vatican an indemnity for the loss sustained by the Holy See through the fall of temporal power, in addition to the payment of the allowance established by the laws of guarantees. Hitherto the pontiff has refused this allowance of \$3,225,000 gold lire yearly. The total amount now, if held to be due, would, with compound interest for about 50 years, exceed two billion gold lire (about \$400,000,000). Means will be found to bring this payment within the range of possibility.

(3) The conclusion of a concordat would be notified to all countries which have diplomatic relations with the Vatican and the Italian government.

It is understood that, once the question is solved, the offices and congregations of the Holy See, as well as the houses of the cardinals and the residences of the diplomatic body accredited to the Vatican, will be gradually transferred to the new territory.
