Some young men insist it should be worn thus, the top button left negligently open; others, with just as much right,

Three Lenten rules are given by Mr. Riley, rector of St. Peter's church: "1—Take your estimate of Jesus from those who observe it well, not from the criticisms of Jesus of those who speak lightly of things they know not. 2—Three duties—may, fast give they are the Lord's commands. 3—No day without some deed to crown it." An Easter rule is that "every communicant of the church is requires to make his or her communion at one of the Easter services."

To Launch Campaign On Easter Morning

Christian Endeavor societies of La Grande are already beginning to make plans and to look forward to the annual Easter breakfast, which they will have at the First Presbyterian church on Easter morning, April 1. Not only Christian Endeavor societies, but other young peoples' church organizations representing various denominations throughout the country, will unite in the "Crusade with Christ," as the new movement is called.

LOOK

to your spine for the CAUSE of your trouble. Good health depends upon a good spine, every joint must be in true alignment with its neighbor. Then the nerve openings are free, vital energy flows in equal proportion to all organs and health is a fact.

Drugs may stimulate; may counteract or suppress symptoms and produce an impression of restored health. But that impression is likely to be false, because the CAUSE of the disease remains untouched.

The spine must be brought back to normal alignment first of all and only one thing will bring it back. That one thing is CHIROPRACTIC ADJUSTMENTS.

There is "that something" within your mortal body which science has, down thru the ages, overlooked. It is this that the CHIROPRACTOR has made a life study of and with which as time progresses you shall become more familiar.

MENUS

BREAKFAST — Oranges, cereal cooked with dates, cream, codfish balls, crisp toast, milk, coffee.

LUNCHEON — Fish chowder, grapefruit and cabbage salad, fig cookies, cocoa.

DINNER — Braised veal roll, boiled rice with tomato sauce, assorted relishes, prune whip with boiled custard, milk, coffee.

Radishes, green onions, hearts of celery, olives and home made pickles are included in the "assorted relishes." If a regulation relish dish is not at hand the different articles can be attractively arranged on a large dinner plate using lettuce or lines of parsley to separate the materials.

Braised Veal Roll

One slice veal steak cut 1 inch thick, 4 tablespoon minced parsley, 1 tablespoon grated lemon rind, 1 teaspoon mixed dried herbs, 1 teaspoon salt, ¼ teaspoon pepper, 4 slices bacon, 1 cup diced carrots, ½ cup diced turnips, ½ cup diced celery, 2 cups boiling water.

Remove the little round bone and trim skin from steak. Mix parsley, lemon rind, powdered herbs, salt and pepper and sprinkle evenly over meat. Roll the meat from the long side keeping the seasoned side in and fasten with skewers or strong wooden toothpicks. Cover the top of the roll with bacon, using wooden toothpicks to hold slices in place. Place vegetables in a greased casserole and put meat on top. Cover and put in a very hot oven for 15 minutes. Then add boiling water and reduce heat. Cook about an hour, or until tender, in a moderate oven. Remove cover to brown on top. Serve from casserole. Cut roll in slices crosswise to serve.

A Clever Reply To An Ill-Mannered Pay Envelope

If the contents of your Pay Envelope doesn't believe in making long calls, don't quite despair. After an extensive survey Boston Teachers' College announces that girls earning $22 a week can be well dressed and spend only $210 a year, and answers the question of "How do they do it?" by retorting, "Knowing how to buy."

There is no especial news in this to the young woman who has learned to shop the "Penney way." Long ago she knew that a new Spring coat need not be a tragedy, nor a new hat or a pair of evening slippers a matter of "hope deferred." Our clothing is not only of excellent quality, but our New York buyers select styles that are practical adaptations of the current mode.
