## P-T. City Council Has Meeting At Riviera School

Mrs. J. Charlton, chairman of the home service committee, told of the three branch libraries at the Willow, Greenwood and Riviera schools, where 15,000 volumes were circulated during the year. She also told of the children's room which is now being prepared at the city library.

After the council meeting Chester Gilbert, principal of Riviera school, announced that each of the school rooms had an exhibit of the year's work, and invited those present to visit the various rooms. ## MENUS

**By Sister Mary**  
**BREAKFAST**—Grapefruit juice, broiled finnan haddock, potatoes hashed in cream, graham muffins, milk, coffee.  
**LUNCHEON**—Scallops in ramikins, toasted muffins, celery and carrot salad, molasses cookies, milk, tea.  
**DINNER**—Planked halibut steak, hashed green peppers and rice, curly endive with bacon dressing, lemon meringue pie, milk, coffee.

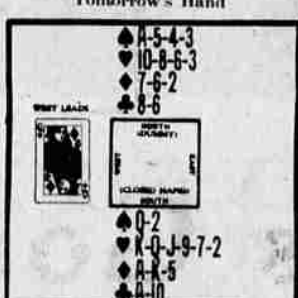

If small children must be considered the breakfast must be reconstructed to include a cereal. Orange juice or stewed fruit could be substituted for the grapefruit juice and the fish should be forbidden.

**Scallops in Ramikins**  
 One pint scallops, 5 tablespoons butter, 2 tablespoons flour, 2 cups milk, 1/2 teaspoon salt, 1/2 onion, 1 red chili pepper, 2 cups hot rice, potatoes, 1/2 teaspoon salt, 1/2 teaspoon pepper, 2 eggs.  
 Four boiling water to more than cover over scallops and boil rapidly for 1 minute. Reduce heat and simmer 10 minutes. Drain from stock. Melt 3 tablespoons butter.

With the initial lead up to his tenace, Declarer is sure to take two Spade tricks and cannot possibly take any more; he will take one Heart trick and no more; in Clubs he surely will take one—he will get two if the finesse he succeeds in. In those three suits he is sure of four tricks and has an even chance of a fifth. In Diamonds the maximum that he can take is four tricks, and therefore to make his game he must have the luck of finding the King of Clubs in West's hand and of taking four Diamond tricks. Of course it will be easy for him to take four Diamond tricks if the two wrong Diamonds are divided 3-2, but six cards of a suit in two adverse hands are less apt to be divided 3-3 than in some other way. If the division be 4-2 with Queen and one in the West hand and four headed by the Ten in the East hand, or four headed by the Queen in the West hand and two in the East hand, leading the Ace and King of Diamonds to tricks 2 and 3 and the attempting to establish the Diamonds, will allow the adversaries to take two Diamond tricks; but with either of these 4-2 distributions, if Declarer lead a small Diamond from the Closed Hand toward the Jack in Dummy, he would take four Diamond tricks and with no possible distribution can leading the small Diamond cost him a trick. He should therefore with the first Spade and, trick 2, lead a small Diamond from Closed Hand toward Dummy's Jack.

South is the Declarer playing a Heart contract. The question is how he should play to play the hand. Answer tomorrow (Copyright, John R. Dille Co.)

We are all set for another day but probably won't be sitting long. Yesterday's business made us feel that old-fashioned times were returning again.

Our cash factory is busy. Royal coal is still selling. Monarch paint is the best on earth. The Martin-senour varnish is 100 per cent pure. We have a good trade among the painters for paint and varnishes that they are using on the very best stock. You can get enamel here from one gallon to 50 gallons and it is the very best enamel—the Blipin and the full gloss white put out by the Martin-senour company. The wallpaper department is doing well. We send paper hangers and painters out from here.
