Rubber Selling Halts Up Trend In Stock Trade

NEW YORK, Mar. 6 (AP)—An outbreak of selling in the rubber shares caused only a temporary halt in the upward movement of prices in today's stock market, which was again featured by heavy accumulations of the motor shares. Trading in General Motors common, the feature of the three previous sessions, quieted down somewhat, although the stock mounted to a new high record at 148½ after having dipped to 146 around midday.

The closing was strong. Plain evidence of the recent change in speculative sentiment was afforded by a further bulge in General Motors to 149¼ in the final hour. A number of specialties also were bid up violently. U. S. Cast Iron Pipe, A. M. Byers, Chesb Peabody and Liquid Carbonic gained 3 to 7 points. Total sales approximated 2,500,000 shares.

GENERAL MOTORS UP

NEW YORK, Mar. 6 (AP)—General Motors common stock rushed up to $150 a share on the New York stock exchange today. This was an advance of $3.50 over yesterday's closing quotation and a gain of $12.50 since last Thursday night.

Diabetics

Thousands Add Agmel to Diet—Vital Raw Food From Mexico

For centuries fresh Maguey sap, called Aguamiel, has been great natural remedy of Mexico. Scientists have long studied it. Scores of books and treatises published on medicinal use. For years European and American physicians have sent diabetics and other sufferers to Mexico to drink Aguamiel because the fresh sap quickly spoils and cannot be exported. Results are medical history.

Now Maguey sap is concentrated into delicious raw syrup called Agmel. Spoils indefinitely. Has world-wide use. It is Aguamiel absolutely unchanged except for removal of water without cooking. Rich in nine important minerals, vitamines A, B, C, beneficial natural yeast, and Agavose, a natural sweet which diabetics can use. Nothing added. Non-alcoholic. Every diabetic should investigate Agmel as a dietary adjunct. Free 24-page booklet and letters from physicians and users at your drug store. Imported only by Agmel Corp'n.
