BELIEVE AND LIVE—Jesus said unto her, I am the resur-
rection and the life: he that believeth in me, though he were
dead, yet shall he live: And whosoever liveth and believeth in
me shall never die.—John 11:25.

Quite a few outstanding statesmen will be standing out
in the cold a few months from now.

A judge can sentence an oil man to jail for contempt of
court, but the oil man's lawyer can keep him out by arguing
that the sentence isn't grammatical or properly punctuated.

One of the most remarkable things revealed by the sen-
atorial committee investigating the Pennsylvania coal situa-
tion was the court injunction forbidding the miners to sing
hymns in church. The church was near a mine. The mine
owners were annoyed by the striking miners gathering in the
place of worship and singing "Onward Christian Soldiers"
and other pieces in their hymn book. Such singing was held
to be "hostile and inflammatory." The miners were afraid
of that incredible court order. The senators were not. They
promptly entered that church and joined in singing the for-
bidden hymns. They knew their Constitution.

KILLING CHILDREN

The U. S. Department of Labor hands out an unpleasant
shock by revealing that more than one-fifth of the total
90,000 fatal accidents that occurred in this country in 1925
were to children under 14 years of age. Automobile accidents
and burns accounted for the bulk of these tragedies.
It is worth noting that fire arms were responsible for nearly
a sixth of all the fatal accidents involving children between
10 and 14.

The mere fact that the country had 90,000 fatal accidents
in one year is bad enough. But the situation becomes ap-
palling when we find that little children make up a fifth of
that total. Isn't it time that the country tackle the acci-
dent problem in earnest and educate everyone responsible?

Not all fatal accidents to children are due to childish
carelessness. Grown-ups must share the burden of responsi-
bility, but better and more careful child training can help
cut the total. Playing with matches and fire, playing with
"empty" firearms, and playing in the streets where motor
vehicles must pass—these things cause a majority of fatal
accidents to children. And under such circumstances the
neglectful, easy-going parents, who pays little attention to
what their children do or where they are, are largely res-
ponsible.

Drive the streets of La Grande or any city or town.
Notice the number of children playing in the street, coasting
on to the street on wagons, sleds, scooters, and roller skates
from sloping walks and driveways. Notice the children go-
ing home from school. It's easy to distinguish between those
who are trained for safety's sake and those who are not. See
how many play in the streets, walk in the streets, or cross
the streets carelessly.

The trouble is largely with lack of training and supervi-
sion. Some children are allowed to run in the street as soon
as they can run at all. Some children are never seen by
their parents or any other supervising individual from one
meal time to the next. There is little wonder that accidents
happen under those conditions.

Motorists are sometimes to blame. Drivers often attain
too great a speed in residential areas. But accidents fatal to
children are sometimes unavoidable by the driver—yet the
driver is always blamed by the parents when the unexpected
tragedy happens. Allowing children to play in the street
ought well be prohibited by city ordinances, with a penalty
for parents in case of violation. Twenty thousand dead chil-
dren a year from accidents is twenty thousand too many.

STAR CENTERS TO MEET IN CONTEST HERE SATURDAY

(Continued from Page 21)
were unable to figure a way to send
the band because of inadequate fi-
nances. Then the business men
took up the matter, believing that
the public is interested enough to
see that the band could and would
be provided with the necessary
funds through a series of entertain-
ments, and the basketball game
represents the first of these. Ob-
servers and judges of high school
bands throughout the state assure
school authorities here that La
Grande has a strong organization
of young musicians and that it
hand will enter the contest with
fine prospects of success. As con-
testing bands are limited to 25 mu-
sicians, it places the medium sized
city on an equal footing with the
larger places.
The committee is expecting to
see the L. D. S. hall crowded to
capacity Saturday night. A pre-
liminary game will be played at
7:45 o'clock between the two best
grades school basketball teams,
which will be of interest, and the
Wallows-M. I. A. game will start
at 8:45. Business men who can
not get to the game before 8:45
o'clock can have their seats re-
served by taking their tickets to
Oscar Warmack, at the U. S. Invest-
ment company; Ray Huel, at his
barber shop, or C. N. Fisher, at
the La Grande Printing company of
the Carr-Copsey Insurance com-
pany.

Goitre Not a Disease
Milwaukee—Doctor Makes
Remarkable Discovery

MILWAUKEE, Wis.—It has been
brought to light by scientific re-
search that goitre is not a disease
and is not to be treated as such.
Dr. A. A. Rock, Dept. 825, Box
737, Milwaukee, Wis., a prominent
goitre specialist for over 24 years,
has perfected a different method of
treatment for his patients that has
proved remarkably successful. This
same method is now being used for
a home treatment of goitre cases
all over the country with astonish-
ing results. The doctor states that
goitre is a condition which grows
worse with neglect and recom-
mends immediate attention no mat-
ter how small the growth may ap-
pear. He strongly opposes need-
less operations. Dr. Rock is the
author of a book that tells in a
simple way about treating goitre
at home. He has published this
book at his own expense and will
send a copy free to anyone inter-
ested. Write him today. —Adv.
